WORD PICTURE OF CONDITIONS IN INDIA

Hindu Lecturer Declares Situation Is Hopeful And There Is No Reason To Despair

Drawing upon his experiences as a government servant in India, as a follower of Mahatma Gandhi and as one who has visited the villages as a human being, Mr. A. I. Raja Singham, a native of India who has travelled extensively through his own country, brought a word picture of conditions in India today to a Kelowna audience gathered in the I.O.O.F. Temple Tuesday evening, when, in excellent English, he declared that the basic troubles of India were to be found in the villages, where life was strangled to death because of political influences. Out of the 360 million people in India, eighty per cent lived in the villages, and India's problems could not be solved until their struggles for existence were made easier.

Mr. Raja Singham, who has been touring the United States for the past eighteen months, was brought to Kelowna under the auspices of the Canadian Club, which decided to hold a public meeting this month in lieu of its customary dinner at the Royal Anne Hotel.

New Lady Members

At the opening of the meeting, Secretary A. J. Cameron announced the names of four ladies who had been proposed for membership: Mrs. C. W. Cope, Mrs. J. W. Mudie, Mrs. E. Anderson and Miss E. V. Anderson. They were declared elected.

President C. J. Frederickson, who occupied the chair, extended a welcome to those present who were not members and outlined the objects of the Canadian Club, expressing the hope that, with the opening of the season in the fall, the membership would be increased considerably. He remarked that most speakers found time to address the school students, which was proving of great educational value. Introducing the present speaker, he said that he was born in the south of India but in later years had moved with his family to Ceylon.

Once A Follower of Gandhi

In his opening remarks, Mr. Singham warned that he should not be taken as an absolute authority on India. Only a tourist, he added, and laughter were invited. However, he had travelled in India as a government servant, had entered into the political realm as a follower of Mahatma Gandhi (he was no longer a follower of Gandhi but was an admirer still), and had visited the villages of India as a human being. He would present the ultra-radical revolutionary, while the other appealed to the higher instincts of man and wanted his country built on the highest and best in human nature.

To understand the problems of India, said the speaker, one had to consider the three sides of any problem—"yours, mine and the right side." Quoting from remarks made by two statesmen in Bengal—"the hot bed of revolutionary ideas, but the people of the Empire should realize that Bengal does not represent all India"—he illustrated his point by showing that one believed in doing things with the aid of sword and fire, the sword of the ultra-radical revolutionary, while the other appealed to the higher instincts of man and wanted his country built on the highest and best in human nature.

The Villagers

Out of 360 million people in India, 25 million are politically minded, while 80 per cent of the population lived in villages, where the truest form of life was found and where that life was being strangled to death by political influences. The people of Bengal called the people of the south backward, and part of the trouble in Bengal was attributed to the fact that most of the people there wanted a government job, which meant "having a good wife and the comforts of life." Many of them went to England for their education. No thought was given to the eight per cent in the villages, whose economic position was tragic. If fifty per cent of that eighty per cent (140,000,000) had a one hundred per cent crop each year they would still get only one square meal a day! The greatest luxury in the village was a cake of Sunlight soap, and more than one family had gone without its one meal a day to get it.

British System Of Education Fails

Self-government in India would not remedy the situation, declared the speaker, because for the past twenty years the Indian had never studied government, knew nothing of the practical side. But the British system of education had failed India, and the whole of it was superficial. The Indian got head knowledge but no practical knowledge. The early educators should have had more foresight. As it was today, the student went to England and saw big plots of land on the experimental farms; then he returned to India and wanted to start out in a big way, which was impossible. The twenty-five million educated in the British way were a menace—they could not deal with their own people and did not understand the philosophy of the English. The speaker was one of them and could find use only in political life.

Dealing again with the villagers, he said that the average villager owned only one acre of land, but most of them did not own the plots of land on which they lived. They had to borrow money.

MOTORCYCLE CLUB HAS EXCURSION

Pleasant Outing Enjoyed To Shuswap Falls

A very pleasant outing was enjoyed by a goodly number of members of the Kelowna Motorcycle Club last Sunday, when they picnicked in a very beautiful spot near Shuswap Falls, visiting various places en route. The weather was ideal, the roads in good shape, and the falls a sight worth going many miles to see.

A tasty lunch was prepared by the ladies while a few of the male members enjoyed a dip in the cool water.

The return trip proved more adventurous. One member narrowly escaped what might have been a serious accident, when, in swerving to avoid a collision with an approaching car, his motorcycle upset, throwing its occupants heavily, one receiving a nasty swollen eye.

Various trips of this nature are being planned by the Club. If they are enjoyed as much as their first venture, they should prove a decided success.

PACKING INDUSTRY WAGE SCALE MAY BE REVISED

VICTORIA, May 17.—Revision of the order respecting wages in the fruit and vegetable industry may be considered by the Board of Industrial Relations, it was learned today. The order covering the wage scale for females engaged in packing grapes into effect today. Cannery claim that the heavy rates for overtime will force them out of business.

RECORD ENTRY FOR FRUIT MEN'S GOLF

Ideal Weather Aids To Make Annual Tournament Held Here Highly Successful

The largest number of shippers ever to enter the British Columbia Fruit Shippers' Golf Tournament participated in the eighth annual event played on the Kelowna golf course on Tuesday and Wednesday. Fifty-five shippers forgot the worries of the fruit industry for a couple of days and turned their attention to the Royal and Ancient custom of swinging at a golf ball. They had ideal weather in which to do it, and their journey was highly successful. In addition to the shippers, a number of amateurs took part in the tournament, as did also a number of men from the Coast, including Messrs. Fred Foote, Len Barker, L. A. Murphy, Colin Dingwall, Ralph Ismon and N. Howard, representatives of the Coast concerned donating trophies for the event.

Presentation of the various trophies and special prizes was made at an entertaining social function held in the lounge of the Royal Anne Hotel last night, when Mr. Geo. S. McKenzie, of Kelowna, acted as chairman. Prior to distribution of prizes, Mr. McKenzie pointed out that valley competitors only were eligible for the trophies and that one player could win only one trophy.

The Westminster Paper Mills Cup, emblematic of the open championship, was awarded to R. Reid, Kelowna, with a score of 165. The runner-up was R. Kennedy, of New Westminster, with a score of 158. He was not eligible for the cup.

The Pacific Mills trophy for 18 holes medal play, handicap, was awarded to Bill Hayward, of Vernon, whose net score was 72. N. Howard, New Westminster, 67, and W. R. Trench, Kelowna, 69, were not eligible, and Basil Stewart, of Sumnerland, 70, had already won another cup.

The American Can Company Cup for handicap play was won by Lewis, of Vernon, with a score of 142. N. Howard, with 137, was runner-up. B. Stewart and Rex Lupton, Kelowna, each scored 142, but were not eligible as they had previously won trophies.

The Canadian Bag Company trophy for 4-ball foursome handicap, 18 holes, was won by the Cascade Fruit Co. Ltd., of Kelowna, R. B. Staples and Allan Staples being the players. First runners-up were Associated Growers, Vernon, represented by C. Brosi and K. W. Kinnard. Second runners-up were the Crown Fruit Co. Ltd., of Kelowna, represented by D. Oliver and R. Parkinson.

The Pacific Coast Terminals Cup for most par holes in the first 36 holes, twosomes, was awarded to C. R. Reid, with 16 pars. R. Kennedy, the runner-up, made 19 pars, including three birdies.

The Canadian Industries Challenge trophy, 4-ball handicap, was won by Basil Stewart and N. Howard, with a score of 138. (As Stewart was the only player at the tournament representing his shipping company, he had to go right to choose a partner from outside.)

The Vancouver Ice and Cold Storage Company Cup, handicap play, was awarded to Rex Lupton, of Kelowna, whose score was 68.

The long driving competition was won by P. A. "Tim" Dunne of Vancouver, whose distance was 252 yards. He also won the aggregate (707 yards) but declined to accept it, consequently it went to C. R. Reid, whose aggregate was 689 yards.

Les Roadhouse, of Penticton, won the putting and approaching competition with four strokes. Fred Lewis, with five strokes, was runner-up.

(Continued on Page 4)

MANY STARS TO ATTEND TRACK MEET

Vancouver, Victoria And Most Interior Towns Will Be Represented Here On Empire Day

Under the efficient management of the Kelowna Gyro Club, the Orchard City's big Empire Day Track and Field Meet promises something extraordinary in the realm of interior sport. Bert Fiddes, formerly of Kelowna and now director of physical education at Chalmers Church, Vancouver, through whose efforts Empire Day sports were being in Kelowna a few years ago, is bringing a strong contingent of track and field men from the Coast, while the leading interior centres will be represented by the best material available.

The days programme will open with the popular Pet Parade, which has now become a feature of the May 24th event. In this spectacular show the elite of the animal kingdom will rub noses with the lowly mongrel, and the task of judging the relative merits of the miscellaneous entries will be no easy one.

The Pet Parade will be followed by the first game of English Rugby to be played in Kelowna since 1920, and it will bring together the B. C. Dragons and the Kelowna Famous Players Basketball Champions. Since its revival only a few weeks ago, the game has gained a large following of fans in the morning.

The twenty-six track and field events scheduled for the afternoon begin at 1 o'clock and will continue until 4.30. The new track built this winter at Athletic Field is a relief project in excellent shape, and with the galaxy of British Columbia stars competing it is expected that some new B. C. records will be set.

Immediately after the track and field events, a Southern Interior League baseball game will be played between Peachland and Kelowna teams. Both aggregations have clashed twice this season in overtime tussles, consequently, an interesting game is assured when they meet again.

The day's big sports programme will be climaxed by a dance in the I.O.O.F. Temple, where the Commanders Orchestra will provide the music.

Vancouver track and field athletes who will be seen in action on Empire Day include Vernon's Forbes, Stan Barrett, Earl McCombie, Tony Osborne and other outstanding performers. Victoria is sending two champions in their respective divisions—Chuck Cunningham and Addison.

Practically every town in the Interior is represented in the long list of entries. Among the leading interior athletes is Allan Poole, Kelowna's sprinter, who is expected to give the Coast men a real battle in the 100 and 220 dashes. Poole is travelling faster than ever this year and is in splendid shape for the meet. Chappell, of Kamloops, last year's winner of the 880 and 1 mile, all set to defend his titles. Other interior stars include Joe Wallace, of Nelson, Fred Martello, of Trail, Aslin, of Armstrong, R. Guidi, of Oliver, Bowsher, of Oyania, Gowans, of Grand Forks, Homer Cochran, of Vernon, and Stubbs, Ryan and Pettman, of Kelowna.

MCGEE STIRS UP OTTAWA POLITICIANS

OTTAWA, May 17.—It was revealed today that before leaving Ottawa G. G. McGeer left a note with the chairman of the Committee on Bankruptcy, which has created a stir. The note demanded that the probe recall the bankers and make them disclose how much each is worth, what securities he holds and complete details of the business of all the banks.

Chairman R. B. Hanson described the note as "impertinent," while Hon. J. D. Chaplin remarked: "Tell him to mind his own business."

It was also revealed that Mr. McGeer sent a letter to Premier Bennett charging that Chairman Hanson is not really trying to revise the Bank Act but is following instead the findings of the MacMillan Commission.

"This is unfortunate," says the letter, "because it shows the Bank of England and not the Canadian government as dictating the financial policy of Canada."

QUEBEC COMPETITION IN CANNING INDUSTRY

Stranglehold Secured By Payment Of Low Wages

OTTAWA, May 17.—The charge that Quebec has secured a stranglehold on the tomato canning industry by means of payment of low wages was heard at the Stevens probe today.

M. M. Robinson, of Hamilton, Ont., told the committee that Quebec canners are receiving seven cents an hour, while the Ontario minimum is eighteen cents and in British Columbia, 30 cents an hour. Quebec, he stated, could lay down tomatoes in British Columbia cheaper than the Coast canners could produce them. Part of the trouble, he stated, was due to the fact that in Quebec the canning equipment was leased to families and the whole family engaged in the work. He urged a code for the tomato industry in Canada.

POWERS SEEK TO END WAR IN SOUTH AMERICA

LONDON, May 17.—A group of the great powers, including Britain, the United States and France, made a preliminary move today to bring about the end of the war in Grand Chaco, the disputed border territory over which a bloody struggle is being waged between Bolivia and Paraguay. It has been announced officially that the British representatives in Bolivia and Paraguay have been instructed to tell the governments of the respective countries of the concern felt at the reports of bombing of towns of no military importance and of reprisals on prisoners, in contravention of the Hague Convention. Other governments are expected to make similar representations. Later, if these representations are not heeded, perhaps an economic or financial boycott may be put into effect.

LABOURITES HOLD YORKSHIRE SEAT

HEMSWORTH, Yorkshire, May 17.—The Labour party retained the Hemsworth seat in the House of Commons today without a fight, the nomination of G. A. Griffiths being opposed. In the last general election Hemsworth gave a majority of 13,172 to Gabriel Price, Labour, who recently committed suicide.

MASS BUYING COMMITTEE CLOSES TOBACCO PROBE

OTTAWA, May 17.—The tobacco inquiry before the House of Commons committee investigation into mass buying was completed today, although it was hinted that a private investigator may be appointed to delve deeper into the charges of unfair trade tactics by the Imperial Tobacco Co.

HENDERSON RETAINS LABOUR SECRETARYSHIP

LONDON, May 17.—Arthur Henderson, President of the Disarmament Conference and Secretary of the British Labour party, today agreed to retain his secretarial post at least until the annual meeting of the party next October.

MONEY NEEDED TO BATTLE MOSQUITO

Unless Financial Support Is Given By Public, Control Work Must Cease

Officials of the Kelowna District Mosquito Control Association are receiving calls from all parts of the district complaining of the prevalence of mosquitoes, but apparently the worst is yet to come. The high lake level has set up conditions more difficult to deal with than any encountered since control work started. From Manhattan Beach to Boyce's Meadows all backwaters have filled up, and the mosquitoes are breeding in millions in the tules, sloughs and meadows.

The entire city area has been gone over twice and three barrels of oil have been used already as against six barrels for the whole of last season. To obtain anything like effective control, \$1,000 will be needed, but there is no such sum available. In fact, the wage sheet for the last spray has practically exhausted the treasury of the Association, which is awaiting receipt of a cheque for the \$100 grant from the City, upon expectation of which the present operations are being carried on. When this is used up the control work positively will cease unless the public sees fit to come to the rescue.

If the necessary support is not forthcoming, at least one object will be achieved—with the cessation of control, the public will have an excellent opportunity of learning the value of it. Enquiries and complainants are warned that it is simply a waste of time to phone. If the money is forthcoming, the Association will attend to its end of the business.

LIBERAL HOSTILITY TO MARKETING BILL WEAKENS

OTTAWA, May 17.—The possibility that the Natural Products Marketing Act may receive the official toleration, if not the approval, of the Liberal party, has been weakened today by the position of that measure in the House of Commons. W. L. Mackenzie King, Liberal leader, stated yesterday that the amendments to the bill proposed by the Minister of Agriculture went a long way towards removing his objections and, if a few short tangles were made, he would have no objection to it as "a measure of an experimental character."

Resolutions providing for the introduction of four more important government bills are on the order paper. These are the new Election Act, a bill to launch a gigantic public works programme and companion measures to provide farmers with relief from their debts and with additional credits.

COMMERCIAL MEN'S GOLF TOURNEY SUCCESSFUL

Travellers Compete For Many Prizes In Three-Day Event On Kelowna Golf Course

The Commercial Men's Golf Tournament, which opened on Friday with an entry of about sixty-five, including a number of Kelowna golfers invited to play, was successfully concluded on Sunday afternoon, when the trophies and many special prizes donated by the Kelowna Golf Club were presented to the winners at the Golf Club by President Rupert Morrow, of Vancouver. Except for occasional showers on Friday, the tournament was favoured with ideal weather.

On Friday evening, the lounge of the Royal Anne Hotel was converted into a ball room for the dance started in connection with the tournament under the auspices of the ladies' section of the Kelowna Golf Club, one-third of the proceeds of which was donated to the Kelowna General Hospital. With the Home Gas Orchestra, of Vancouver, providing poppy dance music, the function carried on into the early hours of Saturday morning. On Saturday evening, a banquet, attended by more than one hundred people, was held in the hotel.

The Old Parr Cup, emblematic of the championship, was won by Mac O'Neil, of Vancouver, with H. K. Todd, of Kelowna, runner-up. The commercial man making the best showing in the championship flight was Gordon MacIntosh, of Vancouver. The ladies' championship medal round for the O'Neil Cup was captured by Mrs. P. B. Willis, of Kelowna. Mrs. H. B. Everard, runner-up.

Winners of the flights played in connection with the men's championship were as follows:

First flight: D. Corell, Kelowna; J. Newbury, Vancouver, runner-up.

Second flight: W. R. Trench, Kelowna; G. A. McKay, Kelowna, runner-up.

Third flight: J. M. Robinson, Kelowna; R. F. Parkinson, Kelowna, runner-up.

The Royal Anne Hotel Cup for low qualifying score, commercial men, was won by A. Muir, of Penticton.

The National Hotel Cup for the highest qualifying score, commercial men, went to Vance Dawson, of Kelowna.

The Leland Hotel Cup for the commercial man advancing the furthest in the first flight was awarded to J. Newbury, of Vancouver.

The championship consolation was won by Chester Owen, of Kelowna, with Sam McGladery, Kelowna, runner-up.

Winners of the consolation flights were:

First flight: Major Quinn, Oyania; P. Hunter, Field, runner-up.

Second flight: H. V. Hamlin, Vernon; E. J. Carter, Kamloops, runner-up.

Third flight: Neil McConnell, Kamloops; Del Robison, Vernon, runner-up.

In competition for the longest drive, "Kup" Morrow, using a Campbell ball, drove the pill through the ether for a distance of 282 yards, out-distancing all others.

The aggregate long drive for men was won by W. Stone, no fixed address.

Jimmie Nash, of Kelowna, won the men's putting competition.

Miss Connie Hickman, Kelowna, made the low gross score for ladies, made the longest drive in the ladies' competition and came first for the aggregate long drive.

Mrs. K. McLaren, Kelowna, won the ladies' putting competition.

The tournament, which will be held at Kamloops next year, was efficiently managed by Secretary E. G. Langley, of Vancouver.

Among those donating the many valuable prizes for the tournament were Storey & Campbell, Ltd.; Empire Brass, Ltd.; J. Leckie Co., Ltd.; Moir's and Lowney's chocolate manufacturers; Alexander Murray, McKay, Smith & Blair, Ltd.; Imperial Tobacco Co. of Canada, Ltd.; Home Gas Distributors, Ltd.; Jantzen Mills; United Distillers; F. R. Stewart & Co.; Barber-Illis Co.; B. C. Leather & Findings Co., Ltd.; McLennan, McFeely & Prior, Ltd.; Gus Lyons; Sam McTear; Rowntrees, Ltd.; Chase & Sanborn; Smith, Davidson & Wright; Jarvis Newbury; National Biscuit Company; and Westminster Paper Mills, all of Vancouver.

Interior donors included D. R. Butt and Chester Owen, of Kelowna; National Hotel, Vernon; Incola and The Gables Hotels, Penticton; Savoy Hotel, Nelson; Princeton Hotel; A. McCulloch & Co., Vernon.

The commercial men made several donations to the Kelowna General Hospital out of their large collection of prizes.

FILM TO CELEBRATE KING GEORGE'S JUBILEE

LONDON, May 17.—A film based upon the life of King George is being prepared here, to be released so as to coincide with the twenty-fifth anniversary of the King's ascension of the throne, it was announced here today.

It is not a wise thing to tell people how smart you are.

ARDENT YOUTH LOSES AGAINST EXPERIENCE

Girl Of Seventeen Reaches Final Of Women's Golf Championship

PORTHAWA, Wales, May 17.—Mrs. A. M. Holm, 27-year-old former Scottish champion, today won the British women's golf title, defeating 17-year-old Pam Barton, playing in her first championship, 6 and 5 in the 36-hole final. Pam, an engaging little youngster with a tremendous smile to her swing, led two up at the end of the morning round. Then the excitement began to tell on her, and the older woman won three of the first four holes of the afternoon round to take a lead she never lost.

BIG INCREASE IN CANADA'S EXPORTS

OTTAWA, May 17.—Domestic exports during the four-months period ending April 30th totalled in value \$173,740,000, an increase of more than \$59,189,000, or 51.7 per cent compared with the same period of 1933.

FIRST BIG EXPORT OF GOLD THIS YEAR FROM U.S.

NEW YORK, May 17.—The Federal Reserve Bank of New York reports the first substantial export of gold from the United States since the devaluation of the dollar on Jan. 31st, in a statement of gold movements. The shipment amounted to \$1,750,000 and was consigned to England.

FIFTEEN RECORDS FALL AT RURAL SCHOOLS MEET

Oyama Heads Both Divisions at Track And Field Meet Held In Athletic Park On Friday

Rural schools athletes staged their annual track meet in Athletic Park on Friday, when they smashed fifteen track and field records and tied four more, despite the fact that the day was showery and not ideal for record-breaking performances.

The Central Okanagan Valley Track Meet for Rural Schools—to give the event its full title—brought into keen competition the cream of junior athletes from nine district schools. Oyama led the field in both the Public and High School divisions to capture the coveted cup competed for by these schools each year, scoring 55 points in the Public School division and 50 in the High School section. Rutland Public School captured second place with 47 points, while East Kelowna and South Kelowna tied for third place with 40 points each. Benvoulin High School scored 38 points in competition with Oyama, and it is notable that this year the first real attempt was made to build up the High School division of the meet, many more events than usual being included.

A feature of the meet this year was the splendid showing made by all schools, the final standing of which follows:

School	Won	He's	Total
1—Oyama	45	10	55
2—Rutland	47	10	47
3—East Kelowna	30	10	40
4—South Kelowna	20	20	40
5—Benvoulin	37	10	37
6—Mission Creek	25	10	35
7—Winfield	24	10	34
8—Elision	19	10	29
9—Okanagan Mission	16	10	26

High School	Won	He's	Total
1—Oyama	50	—	50
2—Rutland	38	—	38

Racing down the track in record breaking time, Marion Todd, speedy South Kelowna miss, easily captured the spotlight at the seventh annual meet. Miss Todd broke the valley record in the 75 yards skipping event and 75 yards dash, and tied the valley record in the 50 yards skipping race for girls under 14 and the 50 yards dash.

Other outstanding performers were N. Allingham and J. Taylor, of Oyama, Harold Thompson, of East Kelowna, George Smith, of Rutland, and Miss A. Clark, of Winfield.

The meet was run off with outstanding success by the following officials: Chief Track Judge, "Pi" Campbell; Chief Field Judge, E. Evans; Clerk of the Course, F. L. Irwin; Starter, H. Daniel; Chief Timer, W. Read; Announcer, F. Snowsall; Judges: Messrs. Foote, Munson, Smith, Booth, Claxton, Caldwell, Walker, Hall, Kuipers, Crawford, Pearson, Coates, Stephen, Todd, Bush and Father Jansen. Mrs. Grindon acted as Field Nurse.

Many of the Rural Schools athletes will compete at the Okanagan Valley Schools Track Meet to be held in Penticton on Saturday.

The events and individual winners were as follows:

40 yards, boys under 7—1, H. Durman (B.); 2, Offerdahl (W.); 3, I. Dunlop (O.M.). Time: 7 2-5 secs.

40 yards, girls under 7—1, M. Lanfranco (M.C.); 2, D. Perry (E.K.); 3, L. Pattullo (O.). Time: 7 secs.

50 yards, boys under 9—1, A. Elliott (W.); 2, A. Ibaraki (B.); 3, C. Favell (O.M.). Time: 7 3-5 secs.

50 yards, girls under 9—1, F. Quigley (R.); 2, M. Poschman (E.); 3, G. Gallacher (O.). Time: 7 4-5 secs.

(Continued on page 8)

SEASON ONE OF EARLIEST ON RECORD

From Two To Three Weeks Ahead Of Normal—All Conditions Favour Growth Of Vegetation

(From the fortnightly report of the Horticultural Branch, Provincial Department of Agriculture, Vernon.)

Vernon, B. C., May 12, 1934.
Vancouver Island and Gulf Islands, May 9

The season is one of the earliest on record, being from two to three weeks ahead of a normal season. The past winter has been one of the mildest but the rainfall has been in excess of normal. Practically no frosts were experienced and the excess of sunshine in February brought all vegetation on very rapidly. April was generally fine, but the first part of May has been dull and wet.

All fruit trees bloomed very early, but the bloom did not last long. Practically all the fruit tree bloom had fallen by May 1st. Strawberries are now past full bloom and the first strawberries were reported on Victoria market on the 7th inst. With fine weather, strawberries should be available in fair quantities by the 14th inst. Frost on the night of the 7th inst. caused some damage in low areas. Loganberries and raspberries are now coming into full bloom. Slight winter injury has been noticed in some patches.

Early pickings of gooseberries have been made. Red and black currants are developing satisfactorily. At the present time there appears to be a good set of all tree fruits. Scab has made its appearance due to the dull wet weather. Pear thrips caused considerable damage to pears, apples and cherries earlier in the season.

Asparagus and rhubarb have been on the market for some time. Greenhouse tomatoes and cucumbers are moving in volume. All vegetable and field crops are well advanced. Green manure crops of wheat and vetch have made excellent growth and are ready for ploughing in. Pastures are in good condition.

Lower Mainland, May 10

The past winter has been exceedingly mild and open. Practically the only break in the mild weather was for a period of about a week commencing December 11th, when parts of the Fraser Valley in the path of a north-easterly gale and a storm of far-reaching damage to power and telephone lines. During this period trees and nearly everything in the path of the storm were coated with about three inches of ice. In some cases trees were uprooted, others were broken and damaged, but the total amount of damage from an agricultural viewpoint was not extensive.

Due to the open winter and early spring, farm work has been going forward rapidly. The warm spring weather experienced up to the end of April changed somewhat with the beginning of May and so far the weather has been generally cool with rain, and occasional high winds with a heavy downpour. The season is three weeks to a month in advance of last year, the first car of rhubarb being shipped on March 24th as against April 15th, 1933. A few crops of mixed vegetables are being assembled and shipped. More cars of field rhubarb have been shipped to date than in 1933 and reports indicate that the "rhubarb deal" has been favourable, which apparently emphasises the advantages of some form of orderly assembly and distribution.

Strawberry patches, in the main, are showing up very favourably and, as the blossoming period is extending over a long period, the season for this crop with good weather will likely be prolonged. Cars may be expected to move about the week of the 24th. Raspberry, loganberry and blackberry plantings are being made in advance and present indications are for a considerable increase in the total tonnage. Bush fruits are showing a fair to heavy set in most places. Some early pickings of gooseberries, small in size, have made their appearance on the market.

Tree fruits commenced blossoming early and have extended over a long period. Indications are that the set, on the whole, has been satisfactory, although during the past week the drop on stone fruits and pears has been heavy. Vegetable crops are showing up to advantage and the earlier sections on the Lower Mainland are well advanced. The last of the month and early June will have quantities of vegetables to offer. The contracted acreage in peas for canning shows an increase and there is a large acreage in peas to supply the demand for the home pea trade. Potato plantings have been going forward rapidly with the favourable weather and an increase in acreage is to be noted in many districts.

Salmon Arm, Sorrento and Main Line Points, May 9

Following the mild winter, with good soil-moisture conditions, the weather during April, and to date, has been exceptionally favourable for seed germination and plant growth

BOY SCOUT COLUMN

1st Kelowna Troop

Troop First! Self Last!

Edited by S.M.

Orders for the week ending Thurs-
day, May 24th, 1934.

Duties: orderly patrol for the week.
Oaks: next for duty, Beavers.

Rallies: The Troop will rally at the
Hall on Friday, the 18th, and Tuesday,
the 22nd inst. Both parades start at
7.15 p.m. Full uniform must be worn
on Tuesday's parade.

Recent Rally: The Troop's Tenderfoot
Tests on the 14th inst.

The column this week is very short,
as most of our spare time is taken up
making the final arrangements for the
entertainment.

The tickets are not moving very
fast as yet, but we hope that they will
sell better during the next few days.
Needless to say, they won't sell them-
selves, so you will have to get out and
rattle if you hope to have even a fair-
sized crowd at the performances.

Scout Notes Of Interest

Close to 40,000 young men are en-
rolled in the Rover Scouts of the United
Kingdom.

The Jesuit Training College at Ox-
ford has a Rover Scout Crew of 30,
representing over a dozen nationalities.

With the help of Fire Chiefs and
Firemen, 1,021 Canadian Boy Scouts
last year passed tests as "Scout Fire-
men," qualified in various ways to as-
sist at fires, particularly in the smaller
communities.

The Cub Pack of a Scout Group in a
poor London district held a Christ-
mas Toy Service, for which each boy
was asked to bring a toy, for the chil-
dren at a local hospital. When sorted
the "toys" were found to include two
policemen's helmets and a pair of
handcuffs.

That the Boy Scouts of India—Mos-
lems, Brahmins and Christians—are
"doing as much as any movement in the
country to break down the caste system,"
was the declaration of a returned
missionary, Canon Gould, at Christ
Church, Toronto. "When a task is
assigned them, even if it is against
the rules of their caste, the Scout
work is put first, and the task is
well done."

At a union service of Eastern and
Western churches in the Armenian
Cathedral, Cairo, clergy and people of
seven denominations and languages
participated—Arabic, Armenian, Ang-
lican (English and Egyptian), Pres-
byterian, German Lutheran, Greek Or-
thodox and Coptic Orthodox. The
service opened with the hymn, in En-
glish, "All People That on Earth Do
Dwell." Boy Scouts of various na-
tionalities provided a guard of honour
for the procession.

* DEPTH OF IRRIGATION *
* IN THE ORCHARD *
* By J. C. Wilcox, Drought Spot *
* Investigation, Kelowna. *

(Correspondence relating to this article
should be addressed to the writer.)

The fruit grower is sometimes in
doubt as to the efficiency of his ir-
rigation practices. Among other things,
he is asking: How long should I let
the water run at one time? How many
acres-inches should I apply at once?
How deep should I let the water go in
the soil?

The last of these three questions is
the most important. In whatever part
of the soil the roots are spreading, that
part should be kept wetted all through
the year. If the soil is shallow, such
that the roots are practically all with-
in say two feet of the surface, it is
not necessary to apply any more water
than that required to wet the soil to
the two-foot level. In fact, any water
that seeps down below the root area
is lost to the tree.

Suppose the soil is deep; suppose
roots can be found down to depths of
six, eight and ten feet, as they fre-
quently are found in the Okanagan.
What should be the depth of irrigation
in that case? If by digging one finds
that the roots go down at least five
or six feet into good soil, the best plan
is to wet this soil to a depth of six
feet. For practical purposes six feet
is a good maximum depth for irri-
gation.

The length of time to irrigate will
accordingly depend on the time it
takes to wet the ground to the required
depth. Any less than that may leave
some of the soil around the roots dry.
Any more will cause a waste of good
water.

A good plan is to dig a few large
holes here and there in the orchard to
find out how deep the soil is and where
the roots are distributed. If a soil
survey has been made of the land,
the required information will be readily
available. More information than this
though is desirable, that is, we should
also have some way of telling how long
it takes the water to soak in. One
method of doing this is through the
use of "test holes". These are simply
ordinary post holes that are put here
and there in the orchard and left for
the season. They should be dug down
to the gravel, or in good soil to a depth
of say four feet, and covered over to
prevent evaporation. They are better
put midway between the furrows and
in the tree-row, where they will be
more out of the way. An examination
of these holes during an irrigation will
show the rate of spread of the water
and hence will give the desired infor-
mation.

If a man has a sense of humor he
knows when not to get funny.

SUPPORT KELOWNA'S BIG
EMPIRE DAY TRACK MEET

SPANISH MONARCHIST
PARDONED

General Jose Sanjurjo, sentenced to
death two years ago, but reprieved, for
leading a one-day monarchist revolt a-
gainst the Spanish republic, was re-
leased recently when the President sig-
ned a decree of general amnesty.

FIRST STRAWBERRIES OF SEASON ON SALE LOCALLY

Local strawberries on sale in a local
store as early as May 14th probably
constitutes a record for early produc-
tion of strawberries here on a commer-
cial scale. This date is an advance of
about two weeks on the usual time the
first strawberries of the season are
available locally.

Through arrangements made with
T. Terai, Japanese grower at Ellison,
Overwater Limited were able to offer
to their customers on Monday the first
local berries of the season. The open-
ing price was twenty cents per basket,
but this price will drop as supplies in-
crease.

ELLISON

Mr. Charles Sands, of Vancouver,
is visiting Ellison at the home of his
sister, Mrs. Jack Anderson.

All the Ellison School pupils were
present at the Rural Track Meet in
Kelowna last Friday. Although the
school's rank was low, the children
returned with fourteen prize ribbons
to their credit. Those winning second
place in their events were: Mary Pos-
chman, Douglas Bush, Victor Ste-
wart and Doreen Scott. Those who se-
cured third place were: Caesar Ber-
tucci, Mary Poschman, Iris Mel-
drum (twice), Heather Stewart, Law-
rence Scott, and the girls' open Pub-
lic School relay team consisting of Iris
Meldrum, Nell Meldrum, Heather
Stewart and Audrey Baron.

Mr. Conroy kindly lent his truck
for the kiddies' transportation, while
Mrs. Scott assisted the driver in charge
of the children.

Miss Agnes Conroy is visiting, this
week, her sister, Mrs. Moss, in Kel-
owna.

BETHEL BAPTIST YOUNG PEOPLE

(Contributed)

On Friday last we heard the story of
the Butter Festival in China, as
told by Mrs. Howard Taylor in her
book "The Call of China's Great
North-West." Sealed Orders were
given out, calling for a duct, prayer for
missionaries, reading of missionary
Scripture portions, and an impromptu
talk on "What constitutes a mission-
ary call?"

Next Friday we shall meet at Mrs.
Sloan's home, when the topic will be
"Importance of Public Worship for
Christian Living." Eunice Sloan be-
ing the speaker.

Copies of the programme for the
coming three months are available for
each member.

Again We Challenge Dad:

Buy your Boy a C.C.M.
NOW—
If he doesn't pass his
EXAMS
we will take back the bike
and refund your money

DURING 1932 and 1933 so many dads told us and our
dealers that this CHALLENGE had been such a
wonderful means of stimulating their boys in their school
and home work that we decided to repeat it again this year.

One father said, "After I took you up on your challenge
and bought my boy a C.C.M. he just couldn't bear the
thought of having to take it back to the dealer if he didn't
pass. He buckled right down to his studies and stood
higher in his class at midsummer than ever before."

Girls' Bicycles Included in this Offer

A girl enjoys cycling just as much as a boy, and is equally
entitled to a reward for good school work.

This Challenge Offer applies to new C.C.M. Bicycles and to
the Midsummer Term Exams only. Claims for a refund
must be made to the dealer from whom the new C.C.M.
Bicycle was purchased within one week of the announcement
of the examination results.

The great advantage of buying the bicycle NOW is that
your boy will be able to enjoy a full season's use of it, and
he is just rarin' to get on and ride.

This year all C.C.M. models—boys', girls', adults—have
seamless steel tube frames of aeroplane lightness; the easy-
running C.C.M. Triplex Hanger; powerful Coaster Brake;
comfortable suspension saddles; Endrick rims; rustless steel

spokes; new, racy Dunlop tires; bright parts
Chromium plated over C.C.M. 20-Year Nickel,
insuring a brilliance that lasts. At to-day's prices
C.C.M. Bicycles are truly wonderful values.

C.C.M. Boys' and Girls' Models...\$32.50
C.C.M. Crescent (Men's or Ladies')...34.50
C.C.M. Standard Roadster...38.00
C.C.M. Ladies'...40.00
C.C.M. Boy Scout...41.50
C.C.M. Road Racer...42.50
C.C.M. Light Roadster...45.00

Time payments may be arranged at small extra charge.

C.C.M. the easy-running true-value **Bicycles**

EARLY HISTORY OF KELOWNA IS RECOUNTED

Mr. J. W. Jones Gives Interesting Outline Of Early Days To A. O. T. S. Club

A word picture of the Okanagan in the days when its development was just beginning, with particular reference to Kelowna and district, was painted by Mr. J. W. Jones at the last supper meeting of the year of the A.O.T.S. Club, held in First United Church Hall on Thursday evening last. As the speaker had not been announced prior to the meeting, attendance was small. However, Mr. Jones' address aroused so much interest that he will repeat it at a future meeting of one of the other service clubs, either G. Y. or Rotary, at which time it will be reported in full in The Courier.

Election Of Officers

The officers of the A.O.T.S. Club gave an account of their stewardship, and the executive for the next year was elected as follows: President, Dr. M. P. Thorpe; Vice-President, Mr. G. Elliott; Treasurer, Mr. Bruce Deans; Bulletin Editor, Mr. D. S. Buckland; Chairman of committees: Community Service, Mr. A. J. Hughes; Athletic, Mr. S. Easton; Educational, Mr. T. Chalmers; Membership, Mr. George Morrow; Ways and Means, Mr. W. A. C. Bennett; Programme, Mr. D. Macfarlane.

The activities of the club during the past year were considered reasonably successful. Among its achievements was making possible shipments of fruit and vegetables to some of the less fortunate sections of the prairies. The club also made a donation of \$25 to the Preventorium.

The financial statement submitted by Treasurer G. K. Gordon showed a cash balance of \$117.39. The net profit from the Minstrel Show was \$129.43.

A number of cadets on a certain vessel on an ocean tour were "reading the sun" to determine the position of the vessel. One bright lad finished before the others and hurried to the captain with his calculations. "But, instead of the verbal pat on the back, he heard the captain say, 'Young man, remove your cap at once! We are indeed on a most hallowed spot.' 'I don't understand, captain,' the youth stammered. 'Well,' said the officer, 'if your calculations are correct, this ship is now sitting astride in the middle of the Rheims Cathedral.'

Best as a CEREAL
Best for COOKING
It's so convenient to keep a package of Kellogg's ALL-BRAN in the kitchen. Serve it as a cereal. Use it also as a healthful ingredient in your cooking. For muffins, breads, waffles, etc.
ALL-BRAN brings your family the "bulk" that is so helpful in correcting common constipation.
Two table-spoonfuls daily are usually sufficient. In severe cases, with each meal. How much better than risking patent medicines!
Laboratory tests show Kellogg's ALL-BRAN supplies "bulk" and vitamin B to aid regular habits. This "bulk" is similar to that in leafy vegetables. ALL-BRAN is also rich in iron for the blood.
Special processes of cooking and flavoring make Kellogg's ALL-BRAN finer, softer, more palatable than ordinary raw bran.
And because it is all bran—with only flavoring added—it brings you more "bulk" than part-bran products.
Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

RUTLAND

Owing to the absence of the Rev. A. McMillan, who is attending the United Church Conference in Vancouver, Mr. R. Wightman will give a lantern lecture at the evening service on Sunday. His subject will be "India."

The Brownies held a breaking-up party and hike on Saturday afternoon, the pack turning out in full strength for the occasion. After a short hike to Mission Creek and back, they had an enjoyable supper on Mrs. W. E. Hardie's lawn, and a few Brownie games were played. The Brownies will not hold meetings again until school opens in September.

Wide interest was created by the big cabin monoplane that landed here at the local airport on Friday, remaining here until Sunday.

F. L. Fitzpatrick made a hurried business trip to the Coast on Wednesday, returning again Friday.

Rutland school athletes made a good showing at the Rural Track Meet, just missing victory by a few points, in spite of the 10-point handicap. The Rutland relay team gained many marks for their school. The local Women's Institute did a flourishing business with the refreshment stand. It was very unfortunate that the weather was so bad in the morning. Some disappointment was felt locally that the scene of the meet was transferred to Kelowna, but the superior track no doubt has great advantages.

The softball season opened here Sunday with two games. The Rangers beat Mission Creek, while the Packers won from the Scouts 13-0. The Scouts led most of the way but one bad inning was their undoing, and they lost the lead and the game.

Oyama Intermediates defeated Rutland Intermediates at baseball here on Wednesday last, the final score being 17-11. The first inning was a wild one, Oyama getting no less than 10 runs! After that the locals settled down, and only allowed one more run, while pounding the ball repeatedly and gradually reducing their opponents' lead to the final figure given above. A return game will be played Tuesday of this week.

The regular monthly meeting of the Rutland Women's Institute was held in the Community Hall on Wednesday afternoon last, with an attendance of about twenty-five ladies. Following the usual regular routine business, Mrs. R. Ritchie gave an interesting demonstration of the art of making short-breads. Arrangements were made to hold the annual sports day on June 4th, and committees were appointed for refreshment and ice cream booths. The last week in May was set aside as "Egg Week" for the Preventorium. Any local residents wishing to contribute may leave eggs at the home of Mrs. James Smith.

An addition to the local business activities has been the opening of a bakery by J. Bruemmer. In addition to bread and pastry baking, they will sell soft drinks and ice cream. The corner in the vicinity of the Community Hall is rapidly assuming the appearance of a busy little village, with a general store and post office, two blacksmith shops, two gas stations, boot and shoe repair shop, and several new residences.

JUST CHATTER

(By ex-Kelownian)

The Great Day Approaches
Well, the great day of May 24th draws nigh. What a day it is to be! Every last citizen of Kelowna should be on hand to see this fun. If you love to see a well knit young man, the picture of health, with body in perfect condition, then come out, for you will see dozens of them.
Stan Barrett is going better than ever. He was having trouble with his legs, but that is all over and, although a little late in his training due to the injuries, he expects to be in better shape than ever by May 24th.

Vince Forbes is always a sensational runner, and his style and speed make a big appeal. His dark mop of hair will be streaming again in the breeze. Last year he carried away the aggregate prize but this year he will have to work harder to beat the Interior and Coast talents.
Chuck Cunningham and Joe Addison likewise will be in the forefront of their events.

Another expected visitor will be Vancouver's flying cop, Jack Harrison. The boys of Kelowna and the Interior are likely to have a new sensation. May 24th in the case of them at least are likely to be chasing a cop, instead of having the cop chase them.
Bob Osborne is also in fine shape, and Earl McComber is working overtime on his hurdles and high jump.

As the big day approaches the excitement and interest intensifies. What a day it is to be!

How fast does sound travel? We always thought it travelled very fast. Premier Pattullo and Gerry McGeer shook the capital, but it was some days before the earthquake reached the coast!

Today the writer went down to Hastings Park to see the preliminaries of the High School track meet. It was one of the prettiest sights one could see. Here were dozens and dozens of fine, lean-out fellows all competing against each other. Truly there is no sport where the human body is shown to better advantage and grace than in track. One of the greatest comers is young Martin Naylor. This boy—only a youngster of seventeen—has cleared 22.10 broad jump, and although not yet timed on the 220, is certainly in the very forefront of them all. He is a great favourite, as is Howie McPhee. These two boys are worth watching. They have both great futures in the track game.

Well, so long until the 24th!

WINFIELD

A number of Winfield residents went up to Beaver Lake on Sunday, and report roads in fairly good condition, with many cars at the resort. The Fishery Department are busy stripping the fish, having a record high day on Sunday when about 100,000 eggs were taken. Beaver Lake is still flowing over the top of the gate and Crooked Lake is just lapping the edge of the spillway.

Mr. Chas. Draper went up to Crooked Lake on Tuesday of last week to attend to affairs at the lake. He has placed the stop log and is also fixing up where settling of the loose soil has occurred. The heavy runoff appears to be over and the dam seems to be in very safe condition.

Those wishing to obtain information with regard to the emergence of the Coddling Moth may obtain same from either W. J. Cue or V. R. McDonald, who are tending bait traps under the supervision of the Horticultural Department.

A shower, in honour of Mrs. Arnold Toane (nee Mary Williamson) was held at the home of Mrs. Wm. Veness on Wednesday afternoon, May 9th, when a large number of friends gathered and presented her with many lovely and useful gifts, after which a delicious tea was served by the hostess.

In the absence of Rev. J. L. King on Sunday next, May 20th, the Sunday School Executive will take over the service in the form of a pageant at the usual church hour, 3.30. The Rev. Mr. King will be in attendance at Conference.

The Winfield United Ladies' Aid will hold their monthly meeting at the home of Mrs. J. Todd on Thursday, May 17th.

A number of Winfield residents are in Kelowna for this week, where they are taking advantage of the packing school which is being conducted by the Kelowna Growers' Exchange.

The baseball boys held a very enjoyable dance in the Winfield Community Hall on Friday, May 11th.

Mr. and Mrs. O. D. Burns and Marjorie, accompanied by Alex McDonald, motored to the Coast on Friday.

Mr. and Mrs. Wm. Veness and little daughter motored to Falkland for the week-end. While there they visited at the home of Mr. and Mrs. Kneller.

Mr. and Mrs. Dave Edmunds, of Lavington, were Winfield visitors on Sunday.

Ralph Berry returned home on Sunday, after spending the past two months at Lavington.

SMUDGE FIRES FOR CAMPERS

Portable Smudge Of Great Comfort When Fishing In Fly Country

In the course of an address to the Quebec Society for the protection of plants, Mr. M. B. Dunn, of the Dominion Entomological Branch gave some interesting advice on methods of protection against mosquitoes and blackflies while camping, hunting and fishing. A smudge is an excellent emergency measure, he said, in combating insect attack, especially the onslaughts of blackflies. A good smudge will completely rout blackflies, however numerous and vicious they may be. The beginner usually derives little benefit from a smudge because he adds the smoke-producing material to the fire too soon, with the result that the fire goes out completely. A good smudge should last an hour or more. A small but brisk fire should first be made and allowed to burn till a bed of glowing embers is produced. Then several pieces of dry wood should be added and allowed to become well lighted. Over this should be placed damp, rotten wood or debris from the forest floor. A dense and lasting smoke will result. A small smudge built in a tin pail or can, and carried in the canoe or boat, is a source of unbelievable comfort when fishing in a territory where flies are numerous. Several inches of sand should always be placed in the bottom of the pail to avoid burning the bottom of the boat. Mosquitoes can bite with ease through one thickness of an ordinary garment, such as a flannel shirt, whenever it touches the body. Shirts made of closely woven duck, however, will put a kink in the proboscis of almost any mosquito, and if light underwear is worn inside the shirt, the insects will be completely foiled. A favourite habit of blackflies is to crawl inside one's clothing and bite all parts of the body. If these insects are numerous, therefore, the shirt should be kept buttoned and a large handkerchief worn around the neck, covering the shirt collar. The shirt sleeves also should be kept closely buttoned and held at the wrists with elastic bands.

CHINCH BUG RESPONSIBLE FOR HEAVY LOSS IN U.S.

The chinch bug has been known in North America since 1783. During the years 1850 to 1915, it has caused losses in the United States amounting to the enormous sum of \$350,000,000. Fortunately the chinch bug has not developed to anything like the same extent in Canada, chiefly through the efforts of the Entomological Branch of the Dominion Department of Agriculture, but during some years the bug has been responsible for important injury to meadow grasses, wheat, corn, and oats in the province of Ontario.

SUPPORT KELOWNA'S BIG EMPIRE DAY TRACK MEET

ROCK CREEK FARMERS MAY SHIP MILK HERE

Rock Creek And Bridesville Dairymen Consider Possibility

According to reports, there is a possibility that the farmers of Rock Creek and Bridesville will ship their cream to the Kelowna Creamery. In the past they have been shipping it to Grand Forks and Keremeos, but at the present prices of cream, the long haul is not profitable. On the other hand, the cost of shipping by train to McMillan, and then on by truck to Kelowna, must be ascertained before a final decision is made.

At a recent meeting of the Rock Creek Farmers' Institute, Mr. W. R. Powley, President of the Kelowna Creamery, attended to discuss the matter. It was decided to make an investigation of cartage costs, etc., and report at another meeting. Mr. E. Wasson, Provincial Dairy and Creamery Inspector, with headquarters at Kelowna, also attended the meeting.

MILITIA TRAINING CAMP OPENED AT VERNON SUNDAY

The Interior non-permanent recruits went under canvas at Vernon on Sunday. They include the B. C. Dragoons, under Major G. C. Oswald, of Kelowna; B. C. Hussars, under Lt. Col. W. L. Fernie, of Kamloops; Rocky Mountain Rangers, under Lt. Col. J. E. Wood, of Salmon Arm.

VERNON I. O. O. F. WIN DEGREE COMPETITION

Penticton Lodge Only Five Points Behind For Second Place

Okanagan District Association No. 1, I.O.O.F., convened in Kelowna on Thursday last for their thirteenth annual meeting. The Kelowna District Association also met on the same day for its first annual meeting. In addition to Kelowna lodges, represented included Penticton, Summerland, Vernon, Armstrong, and Enderby.

At the business meeting of the Oddfellows, held in the lower hall of the I.O.O.F. Temple in the afternoon, the following officers were elected for the ensuing year: President, Carl Keshitt, of Summerland; Vice-President, Ed Sherwood, of Vernon; Secretary, J. T. Fell, of Penticton.

The degree competition held in the evening resulted in Vernon Valley Lodge No. 18 winning with 96 points. Penticton Lodge No. 51 was only five points behind with 91.

About eighty Rebekahs met in the upper hall in the afternoon to hold their business meeting. All officers were re-elected. They are: President, Mrs. Topham, of Vernon; Vice-President, Mrs. A. J. Smith, Kelowna; Secretary-Treasurer, Mrs. Fred McKinnon, of Summerland.

Following the Oddfellows' degree competition, an enjoyable dance was held in the upper hall, with Bill Guerard's orchestra furnishing the music.

MARRIAGE

Graves—Cook

Last Friday afternoon, May 11th, at 5:30, a quiet wedding took place at the Kelowna United Church, Kelowna, when the Rev. W. W. McPherson united in matrimony Susan Mary Alexandra, second daughter of Mr. and Mrs. G. Cook, of Gosport, Hants, England, to Errol Anstruther Graves, only son of the late Col. A. A. Graves, D.S.O., of Here, England. The bride wore a powder blue crepe silk gown, with white accessories, and carried a bouquet of lilies of the valley and lavender sweet peas. She was attended by Miss Ella Maud Patterson, who wore a gown of champagne lace and carried lilies of the valley and white sweet peas. The groom was escorted by Mr. Daniel Fleming McWilliam.

The happy couple will reside at the home of the groom, "Birch Springs," near Okanagan Mission.

OBITUARY

Mr. Peter Blackey

After an illness of two years, Mr. Peter Blackey, a resident of Kelowna for the past twelve years, passed away early on Wednesday morning at the family residence on Cadder Avenue.

Mr. Blackey, who formerly resided in Toronto, came to Kelowna in October, 1922, and had resided here since that date.

Besides his wife, he is survived by two sons, Peter, jr., of Toronto, and John H. of Calgary; four daughters, Mrs. E. M. Crisler, of Regina, Mrs. J. H. Broad and Miss M. H. Blackey, of Kelowna, and Mrs. J. J. O'Connor, of Calgary; one brother, Mr. Henry P. Blackey, and one sister, Mrs. O. Grundy, both of Toronto.

The funeral service will be held on Friday, at 3 p.m., from the family residence to the Kelowna Cemetery.

Mr. John Downton

The funeral of the late Mr. John Downton, well known to old-timers of the Kelowna district, was held from the Anglican Church at Summerland on Monday, May 7th. He had passed away after a long period of ill health.

Mr. Downton, who was a native of England, was employed in Kelowna for several years by the D. W. Crowley Co., Ltd., as a butcher. He went to Summerland over twenty years ago to start on his own account, purchasing a meat business in the lakeshore town and afterwards operating at West Summerland.

Shortly after going to Summerland he married Miss Agnes Wanostrucht, who predeceased him in 1932. He is survived by a son, William Downton, resident at Summerland.

FURTHER DONATIONS TO PREVENTORIUM

Glenmore Provides Many Supplies Through Shower

(Continued)

This week another shower was given for the Preventorium, this time by the Women's Institute in Glenmore. This brought in a splendid supply of groceries and canned goods which will go a long way. We have also received a large number of miscellaneous donations for which we are most grateful. The following:—A.O.T.S. Club, Kelowna, \$25; Mrs. C. R. Bull, \$10; Mrs. C. Johnston, \$5; Mrs. E. Snowsall, \$1; The members of the Preventorium Women's Auxiliary, \$5; W.I. Glenmore, 14 cans tomatoes, 3 cans beans, 3 cans corn, 7 cans peas, 2 doz. eggs, 1 can green peas, 3 cans prunes, 1 can apricots, 3 cans plums, 3 cans pears, 4 cans cherries, 4 jars of jam; 4 boxes of apples, 1 box Lux, 3 bars of laundry soap, 3 bars of toilet soap, 1 packet of corn starch, and 2 pairs of pillow cases. Mr. and Mrs. Anderson, for delivering these goods; Mrs. Barton and Mrs. Dalglish, asparagus and 3 pairs of pillow cases; the Rutland Anglican Guild, 1 knitted quilt; Mrs. A. S. Mills, 6 doz. eggs; Mrs. A. E. Harrison, 1 doz. eggs; Mrs. Beattie, 2 doz. eggs; Mrs. Francis and Miss Dykes, cakes; Mrs. G. C. Renfrew, 3 bedside mats; Mrs. Lee Weston, hooked mat; Mrs. O. L. Jones, jam; Mrs. Russell, curtain rods; Mrs. Bond, 1 dozen eggs and butter; Miss Nairn, 2 door mats; Mr. Gore, bath mat and game; the W.I. Rutland, 3 doz. eggs; Mrs. Hoskins, 1 doz. eggs; Mrs. R. L. Dalglish, 2 blankets, rhubarb and asparagus; Miss Joan Gore, ice cream.

An argument has two sides like a gramophone record, but you can stop a record.

LOCAL & PERSONAL

Mr. J. Ward, of Victoria, is a guest of the Mayfair Hotel.

Mr. H. B. Penna, of Nelson, is registered at the Mayfair Hotel.

Mr. A. J. Hunt, of Vancouver, is a guest of the Mayfair Hotel.

Mrs. Constance Knox left on Monday on a trip to Vancouver.

The Kelowna Westbank ferry engine is out of order. Motive power for the ferry is being supplied by a tug while the engine is being overhauled.

Rev. W. W. McPherson left on Wednesday for Vancouver to attend the Conference of the United Church which is being held there this week. He will be away until next Tuesday.

The Salvation Army are holding their annual Tag Day in conjunction with Self-Denial Week on Saturday, May 19th.

Mr. Andrew Fraser was a Canadian National passenger to Vancouver on Monday.

Mrs. H. F. Chapin left on Tuesday for Halcyn Hot Springs, where she will spend some ten days.

Mr. L. W. Makovsky, of Vancouver, is in the city, a guest of the Willow Inn.

Mr. C. M. McIntosh, of Vancouver, is relieving Mr. J. D. Weddell, Sub-Collector of Customs, who is on vacation.

Mrs. Henry Burch and Mrs. Clarence Burch left on Tuesday by Canadian National for Toronto, where they will visit relatives.

Mr. E. G. (Kiki) Smith left on Monday for points in northern British Columbia, where he will engage in mining.

Mr. and Mrs. A. J. Hughes left on Saturday by Canadian National for Chicago, where they will spend a holiday.

The first round in the judging of gardens was made on Friday by the Kelowna and District Horticultural Society.

At the Sunday evening service at St. Michael and All Angels' Church, Madame Sonia Padoska sang "Ave Maria" with violin obligato, and "Aldi with Me."

Mr. H. B. Everard, District Grand Superintendent, Royal Arch Masons, returned yesterday from an official visit to the Revelstoke Chapter. He was accompanied by Messrs. D. Chapman and H. F. Chapin.

Mr. Cecil Scott, Magazine Editor, Mrs. Grace Luckhart, Woman's Page and Feature Editor, and Mrs. Edwards, Bridge Editor, of the Over Daily Province are visitors to the city this week on a motor-tour of the Interior. They are accompanied by Bill Luckhart.

Madame Sonia Padoska, mezzo-contralto of international fame, will give a recital in the I.O.O.F. Temple on Monday evening. She will be accompanied by Mrs. A. J. Pritchard, L.R.A.M., A.R.C.M. Ten per cent of the proceeds will go to the Anglican Church organ fund and five per cent to the Hospital.

All returned men are invited to hear Col. W. S. Buell, C.B.E., President of the Provincial Command, Canadian Legion of the B.E.S.L., who will speak on "Impressions of the Dominion Convention at Ottawa" and discuss the provincial convention at Portland in June, in the Legion Hall on the evening of May 25th.

The afternoon tea and sale of work to be held under the auspices of the Order of the Eastern Star at the home of Mrs. G. A. Meikle, Glenn Avenue, on May 31st, will take the form of a lawn party. Strawberries and cream will be served, and the sale will include knitted and embroidered fancy work, aprons, etc.

Wm. J. Carter, described variously as "Canada's Wandering Minstrel" and "The Hobo Fiddler," made his second visit to Kelowna in four years on Sunday. He carries with him a violin 184 years old and a few tin whistles. He plays the old time tunes and has broadcasted at several Canadian radio stations. He pulled out of town on Tuesday on "Shank's mare," bound for Coast points.

A Fokker cabin plane swooped down from the sky at noon on Friday and landed at the Rutland field, where a number of people had gathered to see the arrival of its pilot. The plane, piloted by Gill MacLaren from Calgary, with stops at Cranbrook and Grand Forks, carried Mr. and Mrs. J. O'Connor and children, and Mr. John Blackey, of Calgary. Mrs. O'Connor and Mr. Blackey, daughter and son respectively of Mr. P. Blackey, who died here yesterday, made the trip to Kelowna by plane when it was learned that he was seriously ill.

AUSTRALIAN "DARK HORSE" BATS HUGE SCORE

LONDON, May 17.—Thanks to brilliant batting by a "dark horse" they brought over with them, the touring Australians ran up a long lead today over the Essex County cricket eleven. E. A. Chipperfield, of New South Wales, a surprise selection of the Aussies, ran up 179.

WORD PICTURE OF CONDITIONS IN INDIA

(Continued from Page 1)

to work their land, and the money, which was done with little hindrance, was sent to the village down there again. Great Britain failed India, Queen Victoria said that England would not interfere with the religious beliefs of the people, yet it was anti-religious to stop the suffer movement, which was done with little hindrance. Mahatma Gandhi understood what was going on in India as few people in India seemed to understand, and if any group of people ever gave their support to any one it was to Gandhi, who came at a time when the world was undergoing a great change at the time of the World War. The speaker followed him for six years, and today he could not help but admire him. If Gandhi had gone into the problem of the unteachable man twenty years ago, Great Britain would have been better off today, but Gandhi failed in this. Gandhi had been misunderstood, he was a fanatic but a human being, beloved by the children. He was an idealist, but he had saved India from bloodshed. When Gandhi faded another man was ready to take over the leadership—a man who travelled in a Rolls-Royce, dressed in silk, spoke perfect English, yet preached Communism! The speaker's idea of Communism was "What I have is mine and what you have is also mine."

Britain Guards The Frontier

India was going through its worst crisis today, and was forcing the spotlight on its own problems. With regard to the attitude of Great Britain, there were two types of people in the political life of England, one of which advocated ruling with an iron hand. Thank God they were in the minority. After giving England credit for starting the first National Congress in India, Mr. Singham paid further tribute to the British for the effective blockade of the north-western frontier. The people of the countries on all sides had been trying to force their way into India, but the blockade had kept them out, for which India was thankful.

Freedom Wanted But Within The Empire

In the United States, the people often asked "if India was at liberty to choose a foreign government, which would she choose?" Mr. Singham replied, "If all means let us have Great Britain! The fight for freedom is not against Great Britain—we would not want to see the tie broken—but we want freedom under the British Government. The extreme left wing is gradually swinging to the middle. Most of them are beginning to realize that if India was freed, she could not defend herself as she has no army or navy. And with eighty million people struggling for existence, she should not build. Let Great Britain have preference over all others and let us remain part of the Empire."

The speaker paid tribute to Lord Irwin, who had done much to bring the different factions to an understanding. He had the courage of his Christian convictions, and if the English people would make a Christian approach, India would co-operate. The situation looked dark, but could be solved if India was looked upon as a human being, if a Christian approach was made. In the same way, Canada would have to become Christian before she could do anything for the Empire. In his concluding remarks, the speaker said that the situation in India was hopeful, that there was no need to despair. Quick action and Christian action at best was the only solution to the problem.

The Eurasian Problem

When the speaker resumed his seat, Mr. Frederickson remarked that Mr. Singham was sent here on a mission. He felt that the audience should be told about it.

He had refrained from doing so, said Mr. Singham, as he felt it might cloud the whole issue. However, he would explain. There was a high caste Hindu and was dealing with the problem of the half-caste man, the half-white and half-Indian population in India, who numbered many thousands. The white man who went to the plantations, met low caste women who could be bought for "the privilege of dressing themselves." Most of the white men eventually being left with half-white children. He had been a Christian for nine years, said Mr. Singham, and had found this problem baffling as he was told repeatedly by Indians that "this is what Christian religion has done for us."

The half-caste was despised by the white man and spat upon by the high caste Indian. An unwanted child was worse than an untouchable. However, some of them were today calling themselves Anglo-Indians, and Mr. Singham found that, in most cases, they were just as good as any pure white man or Indian. Given a chance in life, they would make good citizens. This was the work in which he was engaged—with nineteen others—colonizing the Eurasians in the Himalayas. In the past, the half-white man used to consider manual labour undignified, but the colony in the Himalayas were willing to work for their living and for the reconstruction of their own people. They had for their philosophy and religion the teachings of Christ. Application had been made to the British Government for more land, but the government could only reply that "your own people object."

"I say," said Mr. Singham in conclusion, "help put these people on their feet to help themselves and the white man is trying to help the half-caste settle on the land. That is my purpose."

After Mr. Frederickson extended the thanks of the club to the speaker, the meeting adjourned with the singing of the National Anthem.

EIGHTY-FIFTH BIRTHDAY OF BELOVED CLERGYMAN

Presentation And Dinner To Ven. Archdeacon Thos. Greene

On Saturday, May 12th, the Ven. Thos. Greene, Archdeacon of the Okanagan, celebrated his eighty-fifth birthday, and on Monday night, in the Royal Anne Hotel, he was the guest of honour at a dinner attended by some eighty people from all parts of the Valley, as well as those from the Kelowna district, representative of many different creeds and all proud to number themselves among his friends. Mr. E. M. Carruthers presided and Rev. A. V. Despard, of Osoyoos, said grace.

At the conclusion of the repast, the chairman proposed "The King," and the National Anthem was sung. With the briefest possible reference to the happy nature of the occasion, Mr. Carruthers then called upon several speakers in turn, the first of whom was Mayor W. R. Trench.

His Worship said that many honours fell to the lot of the Mayor of a city during his term of office, which provided pleasant memories in after-life, and surely there could not be any memory more pleasant than of the gathering that night to do honour to the venerable man whose splendid qualities of character they all admired. The members of the City Council had hurried their work that evening in order to be present in strength, and all the former Mayors of Kelowna were in attendance except the two who had passed away. On behalf of the City of Kelowna, he extended to Archdeacon Greene most hearty and good wishes for many happy returns of the occasion.

Mr. J. W. Jones, former Minister of Finance, the next speaker, was in happy mood, illuminating his remarks with the inevitable story and spicing them with humour, one of his sallies being that when he looked around the room and saw so many of the Archdeacon's communion in attendance, he wondered how he had lived so long. In a more serious vein, he noted how greatly the familiar figure of the venerable guest had been missed from the streets of Kelowna during his recent illness, and he was delighted to see him about again. His long residence and his many services to the social as well as the religious side of life had rendered him indispensable in the community, and on behalf of his own church and himself, Mr. Jones pressed the hope that the Archdeacon would be with them for many years to come.

Mr. M. Heron, in conveying his congratulations to the guest of the evening, said that his life had been one of continual doing of good, and he hoped that he would be spared for many more birthdays.

Called upon on behalf of the Chinese community, Mr. Lee Bon, in a few words, expressed the gratitude of the Chinese to the Archdeacon for his unsparing exertions on behalf of their people who were stricken during the flu epidemic of 1918. His remarks were further elucidated later by Dr. Knox, who said that when he returned from New York in 1918 he found a number of bad cases of flu and septic pneumonia amongst the Chinese and among hospital cases. A temporary hospital was opened for them and, in the spirit of true Christianity that had marked his life throughout, Mr. Greene, although then seventy years of age, volunteered to act as a nurse and actually carried on as such so long as was necessary.

Dr. Boone, as one of the oldest friends in Kelowna of the guest, then, with a few appropriate words, presented to the Archdeacon a handsome silver-mounted ebony cane inscribed with the two birthday dates—1849, May 12, 1934, and a purse containing a substantial cheque as a token of the love and esteem in which he was held by the community. Five years ago, they had met on a similar occasion, and the Doctor hoped that they would be able to gather again in another five years.

"For He's a Jolly Good Fellow" was sung in stentorian tones, followed by three vigorous rounds of cheers and two "tigers."

Addressing the gathering as his "very dear friends from all parts of the valley," the Archdeacon said he was completely taken by surprise by the number of guests who had been led to suppose that there would be only a dozen or so there, and the result was that he had become so flustered that the speech he had carefully prepared had evaporated. (Laughter.) So he was not going to attempt a speech at all, but he would thank them from the bottom of his heart for all their kind words, which he felt he did not deserve. Looking back over his long life, he could see many mistakes that he had made, and he was proud and happy that, in spite of them, he had apparently gained and retained the love and affection of so many of the old-timers. He was afraid he might have been autocratic and intolerant in the past, as in his younger days he had been a schoolmaster, and they were apt to be that way. He was proud he had so many friends, and different people in the Okanagan. He could not hope for many more days, but he trusted that such span of life as might be left to him would be happy and that he would be able to meet all his friends frequently. After humble and grateful acknowledgments of the numerous reminiscences of the speaker, he turned to the happy who had been a great friend to him and had sought to convert him to Romanism, the Archdeacon wished all many happy returns of their own birthday and prosperity in all their undertakings and thanked them for their splendid gift.

The chairman said that many letters and telegrams had been received

conveying congratulations to the Archdeacon and regrets at inability to be present, but they were too numerous to read in detail. Amongst them were messages from Mr. Grote Stirling, M.P., at Ottawa, and Rev. W. W. McPherson, who was preparing for the United Church Conference at Vancouver. Father McKenzie was ill, otherwise he would have been present.

A programme was then signed by all and was presented to Mr. Greene as a souvenir. The next speaker called upon was Mr. G. C. Rose, who delved into the past for over forty years to confute the Archdeacon's self-accusation of intolerance, quoting an incident at a cricket match at Penticon as indicative of the kindly allowance for human frailty, while the tolerating evil that had marked the life of the venerable clergyman throughout. Mr. Greene, he declared, had always furiously at least, played cricket, and the size of the gathering that night showed how he had gained the love, admiration and esteem of the community in general. It was a gathering that the speaker ventured to hope might be repeated at five-year intervals for a considerable period to come.

The Archdeacon begged permission of the chair to add a few words of what he had already said, in order to convey his appreciation of the gift given to him by the doctors and the local press in his work, which had been of immense assistance. He also wished to mention the splendid work that was

being done by his successor, Rev. C. E. Davis, whom no obstacle succeeded in deterring in his endeavours. As for the question of intolerance, he was afraid Mr. Rose had been too generous in his remarks. However, he had learned toleration in his later years, not of evil, but of other people's views. Rev. H. A. Solly, of Summerland, was the last speaker. He said that it was through Mr. Greene he had been induced to cast his lot in the Okanagan, and now they could not get him out of it if they tried, and he hoped to spend the remainder of his days in the valley. After reminiscences of twenty-five years ago, he paid a cordial tribute to the fine qualities of their venerable guest and declared that the whole diocese appreciated keenly the attitude of the people of Kelowna to the Archdeacon.

During the evening, songs were contributed very acceptably by Rev. C. E. Davis and Mr. Geo. S. McKenzie with Mr. F. T. Marriage at the piano and, after the chairman had thanked all those who had added in any way to the arrangements, a very happy gathering, notable for the array of old timers in attendance, was brought to a conclusion with the linking of hands and singing of "Auld Lang Syne."

Human beings can live forty days without food—good way to get over a depression.

Girlhood lost a valuable safeguard when modesty ceased to be counted a virtue.

OKANAGAN MISSION

There will be Sunday School next Sunday at ten o'clock.

Mr. and Mrs. Hugh Dunlop, Mr. and Mrs. John Dunlop and Mr. Austin Willett returned last Saturday from the Coast by motor.

A tea was held last Monday afternoon at the Bellevue Hotel in honor of Miss Franklin, who leaves the Mission shortly to make her home in England. There was a large attendance and an excellent tea was served. Miss Franklin was the recipient of a handsome leather travelling bag from her many friends in the Mission. Another touching farewell gift was a silk umbrella presented to her by little Valerie Baldwin on behalf of the school children.

Mr. Fuller made the presentation with a few well-chosen and amusing remarks. Miss Franklin asks the writer to state that she was so overwhelmed by the kindness and generosity of her friends that she feels that she did not at all adequately express her thanks to them for their very handsome presents, and still more for the many kindnesses and the good fellowship and friendship she has so thoroughly enjoyed while she has lived in the Mission.

The Okanagan Mission Cricket team played their first match in the City Park on Sunday last, winning from Wardsdale by forty-one runs. H. C. Mallam, 38, R. A. Bartholomew, 33, J. W. Bell, not out 28, and H. Ashbery, 23, were top scorers for the Mission. Mr. Farris carried off the bowling honours with the splendid performance of five wickets for twenty-one runs.

FIRST BAPTIST YOUNG PEOPLE

(By A. E. C.)

A delightful evening is promised next Tuesday night in the form of an ice cream social. There will be a small charge to defray expenses.

TWENTY YEARS AGO

From the files of "The Kelowna Courier"

Thursday, May 14, 1914

"The new steam roller arrived at the car tracks on Friday morning. On Monday steam was put up and the engine was moved to the corner of Ellis Street, where it was overhauled thoroughly and put into working order on Tuesday morning. By two o'clock on Tuesday afternoon it was declared fit and sound and started in to work."

"The Battle of Glenmore" was fought on Thursday between the Rocky Mountain Rangers and an imaginary enemy, whose position was kindly defined by Major Clarke, of the B. C. Horse, and a couple of orderlies. The operations were outlined by Quartermaster Sergeant - Instructor Youngman, and an attack and retreat were executed with a lively discharge of blank ammunition. The work was realistic and was much enjoyed by the men."

"The uniforms of 'E' Co., 102nd Regiment, Rocky Mountain Rangers, arrived on Thursday and were served out in time to have a uniform parade on Monday night. As is usual, the Ordnance Department did not supply a good fit and many alterations were necessary, while some of the men will have to wait until an exchange for larger or smaller sizes can be made. Twenty-nine officers and non-commissioned officers were present at the parade and the Company looked smart and workmanlike in the drab khaki service uniform and forage cap. The rifles and bayonets have not yet come to hand, but are expected any day now. Drill is being carried on three nights per week, in view of the camp at Vernon, which the Company will attend from May 25th to 29th."

Gilbert and Sullivan's opera "Patience" was very creditably presented at three performances on May 8th, 9th and 12th. By heroic efforts, loss of the hired costumes by fire in a train wreck was not suffered to interfere with production of the opera, although news of the disaster was not received until two days before the date set for the first performance. The ladies of the cast pitched in and sewed busily and their resulting costumes looked just as tastefully aesthetic as those furnished by the theatrical supply houses. By a combination of tailoring and the good offices of military friends, dragon uniforms were devised which looked quite all right and, taken all round, the play suffered little by the home-made nature of the properties. The names of the cast provide an interesting study, revealing that comparatively few of the performers are still resident in Kelowna. They were as follows: CAST: Officers of Dragoon Guards—Colonel Calverley, Herbert Barley; Major Murtagh, Grant Ferrier; Lieut. Reginald Bunthorne, R. C. Reed; Archibald Bunthorne, G. C. Benmore; Bunthorne's solicitor, H. Goodie; Rapturous Maidens—The Lady Angela, Miss M. Griffiths, The Lady Ella, Miss P. Pitt, The Lady Jane, Mrs. L. A. Havman; Patience, Miss Frances A. Pearson; Chorus of Rapturous Maidens—Miss V. Bailey, Miss Perry, Miss L. Carver, Mrs. W. Fraser, Mrs. Blair, Miss Shaver, Miss L. Birch, Miss Corbett, Miss Dutche, Miss Thompson, Miss Brunette, Miss Coates, Miss Birch, Miss McGee, Miss Edgell, Miss D. Leckie, Miss McMillan, Miss Wilson, Chorus of Dragoon Guards—W. A. Fuller, E. G. Fuller, W. S. Fuller, E. F. Neale, H. J. Johnston, J. Cowie, E. M. Dick, L. Stocks, W. Fraser, J. E. Loyd, R. Alexander, F. Mawhinney, A. S. Wade, J. M. Croft, A. C. Poole. ORCHESTRA, Drury Price, conductor; First violins, Mrs. Hewitson, Mrs. MacIntyre, N. Bornholdt, J. R. Tuff; second violins, Miss Denison, D. W. Crowley, F. Gore, Viola, W. Lupton, H. Whitehead; cellos, G. Quinn, S. H. Old; basses, T. Morrison, B. G. Meyrick; flute, Mr. Curtis; clarinet, D. D. Campbell; cornet, J. N. Thompson; French horn, W. W. Pettigrew; trombone, J. A. Morrison; tympani, R. Duncan; piano, Mrs. S. W. Thayer; Scenery by Edgar McKie. Electrician, Humphrey Bradford. Electrical effects by James Trenwith. Stage director, G. C. Benmore.

GLENMORE

Miss Lena Martin is staying with Mrs. H. Hardie.

A special Mother's Day service was conducted in the School on Sunday morning. A particular feature was the readings by two of the Sunday School pupils, "Cherry Blossom," read by Barbara Moubay, and the "Story of Samuel," read by Bert Hume.

Miss Beulah McCormick returned on Sunday to Kelowna, where she will work on the staff of the Betty Lou Coffee Shop.

Mrs. W. R. Hicks was at home to a large number of friends on Friday afternoon last. She was assisted by Mrs. H. Hubbard and Miss Reba Hicks.

The Ladies Guild met at Mrs. Snowsells on Friday afternoon. After the business meeting a china shower was held in honor of Mrs. J. Anderson. Little Master Howard Rankin presented a bouquet of flowers, and Miss Reba Hicks made the presentation of the gifts. On the same afternoon, contributions of canned fruit and vegetables were also collected to be sent in to the Preventorium.

Arrangements have been made for Oxford Group teams from Kelowna to take change of services in the School, both morning and evening next Sunday.

OKANAGAN CENTRE

The meeting of the Social Study Club at the home of Mr. and Mrs. H. Macfarlane, on Monday evening, was well attended and proved to be of unusual interest, with two speakers from Kelowna in attendance.

Mr. W. B. Hughes-Games spoke on the desirability of the affiliation of all clubs formed for the study of socialistic problems, that unanimity of effort might be made during the time preceding a federal election.

Continuing, he touched on recent and proposed legislation of both the Liberal and Conservative parties, pointing out the decided trend toward socialistic ideas, in particular mentioning the Marketing Act, which he believes, under a capitalistic system will not meet the end for which it was designed as, when the price to producer is raised the middleman's profit will be raised in proportion, bringing the retail price too high for the average consumer's purse.

The speaker mentioned the plea made for capitalism that, under this system, many inventions have been made, the standard of living raised and production in many lines increased, to which he answered that "this has been done in spite of capitalism," giving details of marvellous inventions which have been suppressed for the benefit of capitalists. "Has anything," he asked, "been heard recently of television? Yet it was perfected several years ago! Capitalism makes progress possible only if profitable."

Touching on the unemployment, mention was made of the all but universal employment during the years of the Great War, the increase of production in all lines, speedy distribution, all sorts of emergencies met for purposes of destruction. "Why is not this possible for humanity?"

An interesting discussion took place on technocracy. One member, speaking of comparing Howard Scott and Edward Bellamy, was answered that they could not be compared as Scott's ideas were only workable in a nationally selfish state, while the other advocated an essentially socialistic government.

Captain Ronald Peck, a deep-sea skipper who has been in the Interior for several years, spoke on some aspects of the last session of the Legislative Assembly at Victoria. He was there during the development of the S. P. A. and noted the absolute silence of the private Liberal members until voting time. He also pointed out that the constructive criticism advanced came only from the C. C. F. members and, what was equally important, that they confined their remarks to criticism that was constructive without wasting time with indiscriminate blocking.

He declared that, as people learn to think of others beside themselves, there is invariably a trend toward socialism—"not Marxian Socialism but a 1934 brand."

Speaking on the question of the opposition in some church circles toward the C. C. F., the Captain said that it comes about largely through the attitude of the Communist party in Russia toward the Greek Church, which is not one of the tenets of socialism. In illustration of the general stand taken in clerical circles in America, the speaker gave the results of a questionnaire circulated in all the theological colleges in the U. S. A. (in which many Canadian men are studying) taking the students' vote on their preference in forms of government, which showed a 95% vote for a co-operative commonwealth, 2% for capitalism, and the remaining 3% for some form of socialism.

Results of socialistic government in Russia were touched on and Captain Peck, while deploring the methods used in transition, as he compared living conditions for the masses now as they were under the Czarist regime made a pertinent comment: "If Russia has improved so much in this time, what would Canada do when everyone was working to improve his own condition and that of his fellow man?"

A hearty vote of thanks was tendered the speakers and when the question of affiliation with the C. C. F. was moved, it was carried unanimously.

Mr. F. C. Copeland, of Vancouver, came in on Monday for a short business visit.

Miss Lola Mohr, of Vernon, is a guest at the home of her grandparents, Mr. and Mrs. Bradford.

Visitors at the Sun Dial last week included the Misses Hanna and Illingsworth, pleasantly remembered by many in the community as tourists from England who stopped here for some time in the late summer of 1931 on their way to the Orient. They are just now returning and left on Sunday for Nelson, where they plan to join the Anglican Sunday School caravan for the summer's work in the North.

Mrs. Haverfield and Miss Franklin of Okanagan Mission, were visitors at "Cambria" on Thursday last.

FROZEN RICE PUDDING

The following is a recipe for frozen rice pudding, taken from the Dominion Department of Agriculture pamphlet on home-made desserts. Ingredients:—two tablespoonfuls of rice; one third cup sugar; three-quarters cup cream; three-quarters cup milk; yolk of one egg; one quarter teaspoonful vanilla. Wash the rice and cook in boiling salted water until tender. Drain, then add the milk, and cook in double boiler about 30 minutes. Press through a sieve and pour over the egg yolk and sugar beaten together. Return to the double boiler and stir until the pudding thickens. Remove from the fire, cool, add the flavouring, and freeze. Whip the cream and add when the ice cream is nearly frozen. Left-over cooked rice may be used (about six tablespoonfuls).

PEACHLAND

It took thirteen innings on Sunday before Kelowna could break through the defence of the local team. With a tie score of six all at the end of the seventh, no runs were scored for five innings. At the start of the thirteenth the field was invaded by the cheer gang led by Morrow in an apparent effort to get the pitcher rattled to such good effect that they got in four runs.

It may be baseball, but is it good sportsmanship? We wonder. Anyway it was a hard-fought game, with first one team ahead and then the other for the first seven innings. With J. Clements acting as umpire and Whatman handling the bases, strong execution was taken to some of the base decisions in the thirteenth inning by the fans, who were out in force, one of the largest crowds at a game this year.

After thirteen innings of hard battle, the local team compared very favourably with the Orchard City team, which in experience and tricks of the trade had the advantage. Resorting to no artifice, the boys always try to play a good clean game in a sportsmanlike fashion and Sunday's game was fought out in the same way.

A special tax of 10 mills is to be made upon the area covered by the domestic water system instead of the 5 mills as decided on previously. This decision was taken at the adjourned meeting of the Council held on Thursday evening.

The Women's Institute was addressed on Friday afternoon by Mrs. Fowle, of Penticton, who spoke on the subject of "The Teen Age Girl." The work done at summer camps for boys and girls was also referred to by Mrs. Fowle, and much interest was taken in this undertaking by many of the members.

Prize winners at the court whist

drive, held in the Legion Hall on Wednesday evening, were Mrs. T. Twinn and J. Garoway, who won first prizes, with the consolation going to Mrs. E. Ruffles and W. Aitkens.

The truck driven by W. Goudie, of Kelowna, is badly wrecked after taking a headlong dash down a steep hill when the axle broke and the steering wheel came off. Mr. Goudie jumped out when he lost control of the truck.

The Women's Auxiliary of the Canadian Legion met on Tuesday afternoon at the home of Mrs. A. West.

Peachland Pirates, girls' softball team, won over Summerland Friday afternoon by a score of 8 to 6, with the Pirates taking the lead and keeping it throughout the game.

Mrs. J. H. Clements accompanied Mr. and Mrs. Delcourt, of Kelowna, on a motor trip to Vancouver, leaving early in the week.

For the next six months Peachland will be the home of the V.O.N. nurse of the Peachland-Westbank Branch, Miss Hill having moved down during the week.

Mrs. E. Hunt left last week for a visit to Summerland. Miss Fanny Hunt has been in Summerland for some weeks.

This couple, advertising in the columns of a Halifax newspaper, may have certain likes and dislikes: "If there exists in Halifax any house built since the war of 1812 and guaranteed free from pull-chain plumbing, children, dogs and unmuzzled radios, can its landlord supply warm, sunny furnished room with kitchen privileges, to sullen, uncommunicative couple at \$4.50 week?"

Studebakers are built in Canada by Canadian Workmen as all Canadian Studebakers have been for 23 years.

GUILD OF HEALTH
"Know ye not that your body is the temple of the Holy Ghost which is in you?"
No one can fail to notice the place that is given to the body in Scripture. Of all the books in the world's literature there is none which insists upon the soul so urgently; yet there is no book in the world's literature which has done so much to dignify the body. It is strange how many people have tried to spurn what Scripture never spurns; it is strange how many people want to be a little more spiritual than Christ. They take the part and treat it as the whole; they are blind to everything except the spirit; they never seem to have caught the flash of glory that the Bible has cast upon the body. "We ourselves groan within ourselves, waiting for . . . the redemption of the body." "I beseech you that ye present your bodies . . . unto God."
Christ refused to interfere when one wanted Him to interfere about his property. But did He ever refuse to interfere when the blind eyes looked up to Him for sight? The whole worth of Jesus is a gift of health, of strength, of purity, and of freedom. (From "The Healer.")

Husband: "Why did that woman keep you standing at the door for half an hour?"
Wife: "She said she hadn't time to come in."

"A vegetarian diet is best for those who would be beautiful," we read. Well, it does not seem to have done much for the elephant.

SEASON ONE OF EARLIEST ON RECORD

(Continued from page 1)

crops off to a "flying start." The season is almost two weeks earlier than normal, but so far no serious frost injury has occurred, although some slight bud injury did take place in the Kamloops district on apples.
Apples are ten days past full bloom at Kamloops, and are just well past at Salmon Arm and Sorrento, where the calyx spray is being applied. Unfortunately, owing to the rapidity with which the bloom developed, many growers in the latter district missed applying their "flying spray" for most control, and it is feared that some early infection may result. Oil sprays for Oyster Shell Scale control were quite extensively applied and good control should be secured. The show of bloom was light at Kamloops and the crop will not be so heavy as last season, while at Salmon Arm and Sorrento there is every indication of a heavy crop of all tree fruits.

Strawberries wintered well both at Salmon Arm and Clearwater, the plants are strong and vigorous, and given reasonably favourable conditions from now on, a good crop should be harvested. A few blooms are showing but it will be a week or ten days before full bloom. Loganberries have come through the winter in good condition where they were well protected, but raspberries show injury here and there due to being caught by frost in an immature condition last fall. The crop will not be a heavy one. All lush fruits promise well.

Onions and early potatoes are showing up well in the Kamloops district. Tomatoes are being planted and are making a good start. Asparagus is moving from Kamloops.

Armstrong, Vernon, Okanagan Centre and Winfield, May 11

Following one of the mildest winters and one with uniform temperatures and ample precipitation, the ideal spring conditions have prevailed but have been experienced in the northern part of the Valley for a number of years.

Growth conditions have been excellent right from the opening of the spring season, and the growth of all crops is at least a week ahead of the past several seasons. Soil moisture conditions are very good, and there is every prospect of ample irrigation water in all districts. There has been no injury either from winter frost conditions or late spring frosts, and in consequence no check or setback in the crops.
Winter wheat fields are 100% in appearance and it is a long time since this crop looked so uniform and promising. The seeding of spring grains is completed and where germination has occurred the stands are doing well. Alfalfa and general hay crops are making rapid growth and give promise of heavy yields, and there will be early cuttings of alfalfa in the next ten days. All ranges and pastures are showing excellent growth and better feed conditions than for a long time, being influenced with abundant moisture and moisture conditions and no damage from winter injury, and one can truthfully say that the whole country is most appealing and gives promise of bountiful yields.

With orchard tree fruits there was an excellent showing of bloom over the entire district. There are, of course, certain varieties and orchards which show "spotty," being influenced by their habits of more or less off-year bearing. It is not possible at present to forecast the set of fruit, but the promise of a large crop is evident. With the absence of spring frosts and a heavy bloom, all stone fruits are this year promising a heavy crop. With sweet cherries there has been quite a drop in the bloom, but even so this crop should run 100 per cent. All small fruits patches came through the winter in excellent condition and show evidence of a full crop of all varieties.

With ground crops such as vegetables and field roots, there has been excellent germination and the stands are in a healthy growing condition. Tomato planting is about completed and is easily two weeks or more ahead of average years. No survey of vegetable acreage has so far been made, but this will be undertaken when it is known that planting is completed.

With respect to pests, there has so far been no serious outbreak, although with orchard pests, the Woolly and Green Aphids are very prevalent and weather conditions at this time are also ideal for the spread of Apple Scab. It will therefore be necessary for orchardists to pay close attention to these pests and institute control methods before a severe outbreak occurs. The Flea Beetle has this year been very active and caused some worry to vegetable gardeners on the crops infested by this pest. Cutworms, although more or less general this season, do not appear epidemic in any instance.

Kelowna, May 10

This spring is two and one-half to three weeks earlier than 1933, according to time of bloom. Warm weather in April forced growth. Asparagus and other early crops grew rapidly.

The bloom was heavy but the crop will not be as heavy as at first indicated, as much of the blossom is not setting. Trees generally are in good shape, but, owing to the mild winter and early spring, more and better spraying will be needed for insect pests, especially codling moth.

Onions are showing up now and tomatoes are being planted in the fields. Crops generally are looking well.

Westbank, Peachland, Summerland, Naramata, May 10

After a very mild winter, the spring season opened exceptionally early with summer heat during most of the month of April. This early hot weather condition brought along the blossoming period of all fruits at least three weeks earlier than last year. The temperature has cooled off since the beginning of May, with much wind and some showers.

The rainfall and snow during the

winter was heavy, with the result that orchard soil moisture was all that could be desired. Although the days were hot, many of the nights were very cool with some slight frost damage in odd spots.

The blossom prospects on stone fruits looked very promising, but on recent observations we find cherry and peach set none too good. Apricots promise a full crop and thinning is now being carried on these crops, as if there will be a fair crop. Apples showed a patchy bloom with some orchards carrying a full crop and others only fair.

Many early vegetable plants were set out in April and the field planting is almost over at this date. The onion crop in Westbank and Peachland looks very promising. There has been some cutworm damage. Less tomato plants are set out this year, but there are heavy plantings to cantaloupes in the Summerland district.

The ravages of bud and measuring worms were heavy in many districts this season, apples and apricots being mostly affected, with some damage in cherries. Spraying for this pest was too late in many cases, while others had good control. The calyx spray application for Codling Moth is over. The spraying season thus far has had many interruptions with wind and rain.

Penticton, Kaledon, Keremeos, Oliver, Osoyoos, May 9

Following a very mild winter the spring season has been much earlier than usual. June weather prevailed during the greater part of April, with the result that everything is well advanced for this time of the year. From present indications, the spring run-off has passed its peak, and there should be no further difficulty from high water.

Moisture conditions at present are excellent, the orchards are in fine condition. From present appearance the crop will approximate that of last year. Ground crops in the Oliver-Jawson section are much further advanced than usual. Early potatoes, cabbage and cucumbers are coming along fast, and it is expected that the planting of tomatoes and cantaloupes will be completed shortly.

The calyx spray is finished in the Keremeos, Oliver and Osoyoos areas, and will be completed in the Penticton district in a few days.

Kootenay and Arrow Lakes, May 6

The past winter was very mild, one of the mildest on record. All tree fruits and small fruits have come through the winter and spring in excellent shape. The growth of all crops is about two weeks earlier than last year. April was a very warm month and growth came on very fast. There was very little rain until the last four days of the month, when approximately one inch fell. For the past week or ten days the weather has been much cooler, cloudy with heavy showers.

Strawberries and raspberries have come through the winter in good shape and these crops are well advanced for this time of year. Considerable bloom is now showing up on the strawberry fields, and there should be a few berries in the orchards in a few days. Cherries showed a very heavy bloom and in a few locations there has been some spring frost injury to the blossoms. However, it has not yet been severe enough to affect the crop to any great extent. The weather was ideal for the blossom period and all indications are for a heavy set. Pears were a heavy bloom and apples fair to good, about normal for most varieties when all sections are taken into consideration.

Vegetable crops were planted much earlier than usual and they should reach the markets at an earlier date than last year. Early plantings of potatoes are coming up through the ground, and many other varieties of vegetables are well advanced.

Creston Valley, May 8

The winter of 1933-34 was one of the mildest on record. The cold was not intense and the snowfall light, it melted earlier than last year. There were heavy rains last fall, which together with an open winter and little snow in the orchard soil, has provided ample moisture in the sub-soil for present needs, filled reservoirs and caused early spring floods.

There was no bud or root injury in orchards or small fruit beds, except in low places where water lay and slight heaving of the soil occurred. Fruit trees carried a heavy bloom by the middle of April and soon advanced from one stage to the other, as the weather was exceptionally hot up to the last week of the month. All varieties bloomed heavily and have had good weather for pollinization. Late varieties of apples are shedding their petals now. In early situations some growers are already putting on the calyx spray for Apple Scab.

The small fruit planting is over, the acreage put out in strawberries this season is not quite as large as last year, though a light increase in raspberry planting is expected. The strawberry beds are now in full bloom in many sections, and early picking may be expected to commence the last week of the month.

All stone fruits promise a full crop, as the bloom was heavy. Apples give promise of a good general heavy crop, as all varieties blossomed well. Pears are good except the Flemish Beauty, which bore heavily last year. Bush fruits are well advanced, gooseberries are now sizing rapidly. Tent caterpillars are very much in evidence in the orchards. Alfalfa is well advanced; cutting will commence early in June.

Growers are still cheerful and optimistic and are keeping their orchards in good shape, spraying, pruning, etc., and are using every effort to keep packing and shipping expenses down to the minimum.

Grand Forks, May 9

The past winter was one of the mildest ever recorded in the Grand Forks district, and orchards, small fruits, full wheat and alfalfa came through in excellent condition, generally speaking. Blossom indications in most of the orchards are for a lighter crop than in 1933 and there has been frost damage reported in the pear crop. The season is about one month earlier than usual and all early crops are well advanced. Seeding of early vegetables, spring grain, etc. has been com-

MUCH HUNTED CRIMINAL

Although pursued by an army of police, federal agents, soldiers, citizens in general and a squadron of aeroplanes, John Dillinger, dubbed "Public Enemy No. 1" in the U.S., is still at large.

NEW OFFICE BUILDING SOON TO BE OCCUPIED

The new structure on Pendozi Street built by Messrs. P. B. Willis & Co., Ltd., adjacent to their store, will be occupied by Mr. B. deF. Boyce and Dr. Reba Willis, who will use both suites of offices in the new building, construction of which has been completed, but further interior fittings are to be installed before the offices will be ready for occupancy.

The exterior of the one-story brick building presents a pleasing appearance, and the interior, designed especially for medical offices, is most inviting.

BORDEAUX MIXTURE FORMULA

In the bulletin on vegetable insects and their control, issued by the Dominion Department of Agriculture, it is stated that Bordeaux mixture, although primarily a fungicide, is also used as a control for many species of flea beetles and some leaf hoppers. It is practically always used as the basic fluid when spraying for potato beetles, since it is the standard remedy for many important potato diseases. Bordeaux mixture is made by mixing copper sulphate (bluestone), hydrated lime, and water together in the following proportions:—copper sulphate (finely ground) 4 pounds; hydrated lime, 6 pounds; water, 40 gallons. The method is greatly simplified if finely ground copper sulphate and hydrated lime are used.

After the spray tank has been filled with water, the engine is started and the correct amount of finely ground copper sulphate gradually added. With the agitator running, the fine powder will be thoroughly dissolved in five minutes. In the meantime, the hydrated lime is placed in a large pail and slowly stirred with a stick while sufficient water is added to fill the container. After thoroughly mixing, the liquid is then gradually added to the now dissolved copper sulphate in the spray tank, while the engine and agitator continue to run. This proceeding is repeated two or three times until all the hydrated lime, with exception of the insoluble foreign matter in the bottom of the pail, has been carried over into the spray machine. The Bordeaux mixture, which is pale blue in colour, and is now ready to apply.

CANADIAN SCULLER SUFFERS SERIOUS ILLNESS

Following a week's illness from an infected hand, Joe Wright, Jr., famous Canadian sculler and winner of the Diamond Sculls in 1928 suffered a severe internal hemorrhage on April 26th, and it was necessary to give him two blood transfusions in the hospital to which he was taken in Toronto.

pleted and the late potato crop is mostly planted. A hot dry spell was experienced in April, followed by two weeks of cold, wet weather, and growing conditions are ideal at present with indications of heavy yields.

There will be larger acreage under cultivation in the irrigated block this year than for many years, owing to the heavy sale of Government lands and the leasing of considerable areas.

SUPPORT KELOWNA'S BIG EMPIRE DAY TRACK MEET

MAKING A LAWN WITH WASHINGTON BENT GRASS
By R. C. Palmer, Superintendent, Dominion Experimental Station, Summerland

(Correspondence relating to this article should be addressed to the writer.)

Washington bent is a creeping form of bent grass which, given proper attention, makes a fine dense turf suitable for putting and bowling greens. In order to secure a pure strain of Washington bent, it is necessary to propagate it vegetatively, the grass seed sold commercially as "creeping bent" usually consisting of a mixture of velvet bent, Rhode Island bent, red top and other bent grass.

Establishing the Grass Nursery
In propagating Washington bent grass for laying down a lawn, the first step is to establish a grass nursery. This is accomplished by setting out small pieces of grass 6 inches apart in rows about 18 inches apart. Plants set in nursery rows grow very rapidly, sending out numerous creeping stems or stolons which have the ability to root from every node or joint. It is essential to keep the nursery free from weeds and to prevent the grass from going to seed. A year from setting in the nursery, the grass should have increased at least a hundredfold.

Planting the Lawn
The site for the lawn should be well prepared, firm and compact below, and in very fine condition on the surface. Where a change of grade is necessary, the top soil to a depth of 3 or 4 inches should be removed, the desired grade established, and the top soil replaced after it has been well screened. Good drainage should be provided. It is important to have everything in readiness so that, once started, the work of planting the lawn can be performed rapidly. A quantity of good screened top soil or compost should be available with which to cover the stolons. These stolons are obtained from the grass nursery by cutting the plants off at ground level with a hoe and chopping them up into lengths about an inch long. Small quantities may be cut by hand, but where large lawns are being planted, it is desirable to run the material through a chaff cutter. On no account should the stolons be permitted to dry out before planting. As soon as cut they should be sown broadcast in strips about 25 feet long and 4 feet wide, 20 square feet of nursery row being sufficient to plant this area. Immediately after planting, the stolons should be covered with 1/4-inch of top soil or compost, after which a roller should be used to pack the soil closely around the cut stolons. Another 1/4-inch of fine soil may then be put on and the strip thoroughly watered. Additional strips should be sown in the same manner until the entire lawn is planted. It is essential to keep the soil moist until new growth is well started, even though this may necessitate two or three waterings a day. A mulch of 1/2-inch of clean straw will reduce the amount of watering required until the new growth is an inch high, when the mulch should be removed and cutting and weeding begun. Established Washington bent grass lawns are comparatively drought-resistant.

Feeding the Lawn
Quickly available nitrogen is necessary to maintain lawns in good condition. Ammonium sulphate is a satisfactory source of nitrogen as it is comparatively cheap and has a discouraging effect on clover and weeds. Small applications of about 2 pounds per 1,000 square feet at monthly intervals give good results. In order to insure uniform application of the fertilizer, it is advisable to apply it mixed with compost. The top dressing should not exceed 1/4-inch in depth. When properly applied, top dressings not only

LESS THAN 1¢ WORTH IN A CAKE

MAGIC

PLANT SOILING CROPS
FOR AUTUMN USEBy W. M. Fleming, Chief As-
sistant, Dominion Experimental
Station, Summerland.(Correspondence relating to this article
should be addressed to the writer.)The dairyman frequently finds that
when the irrigation season ends, his
pastures dry up rapidly and milk pro-
duction begins to drop. At this time,
it is very nice to have a crop of succu-
lent feed from which a small portion
may be cut and fed daily to the cows.
Such a crop is known as a "soiling"
crop. Now is the time to plan for a
soiling crop for next September.When soil and climatic conditions
are suitable, corn gives the greatest
tonnage of any of the soiling crops. As
succulence is the chief requirement in
the crop, and development of grain is
not necessary, the corn may be seeded
thickly in drills about the 24th of
May. Some other suitable crops that
give heavy yields of succulent feed and

THE RIFLE

First Practice Over All Distances
Only ten riflemen turned out to the
first regular practice over the three
distances, 200, 500 and 600 yards, held
on the Glenmore range last Sunday
morning, and of the number four did
not fire at 600. The weather was very
bright and warm, and the intense glare
on the targets made definition of the
bullseye at the longer distances very
hazy and blurred, with a depressing ef-
fect on the scores. G. N. Kennedy,
Captain of the Rifle Association, led
the aggregate with 89, which included
a nice 32 at 500, while H. McCall op-
ened his season auspiciously with an
equally fine performance at 200. None
of the other marksmen managed to
reach the 30 mark.Scores at 200, 500 and 600 yards and
aggregate: G. N. Kennedy, 28, 32, 29
—89; G. C. Rose, 29, 25, 28—82; E. L.
Adams, 26, 29, 27—82; D. McMillan, 25,
24, 28—77; P. J. Noonan, 26, 23, 21—
70; D. Addy, 17, 24, 27—68.Fired at 200 and 500 yards only: H.
McCall, 32, 25—57; C. Hawes, 26, 28
—54; J. C. Martin, 28, 24—52; V. Pos-
till, 19, 19—38.The new steel target frames work
very easily and satisfactorily and con-
stitute an immense improvement over
the old wooden ones, rendering the
duty of marking a pleasant one instead
of occasionally a severe task.There will be practice next Sunday
morning and a week later, on May
27th, the first of the team matches,
which will combine the first of
the four shoots for the D.C.R.A. in-
dividual aggregate, will be held.

CRICKET

Okanagan Mission Wins Fixture With
WooddaleOkanagan Mission cricketers de-
feated Wooddale in a league match
played at the City Park on Sunday.Wooddale batted first and scored
113 runs, J. A. Fleck, 37, L. Hayman,
29, and H. Johnson, 17, being top scor-
ers for the team. For Okanagan Mis-
sion, the leading batsmen were H. C.
Mallam, 38, R. A. Bartholomew, 33,
J. W. Bell, not out, 28, and H. Ash-
bery, 23.Early in the game it looked as if
Mallam and Bartholomew were going
to bring in all the runs required to
win the game as both were well set
but, as is frequent in cricket, when
Mallam lost his wicket Bartholomew
put up a catch and was out also. This
first wicket partnership realized 73
runs. Four wickets fell quickly for an-
other 12 runs. Then Ashbery and Bell
came together and knocked off the re-
quired runs to win the match. E. Far-
ris took 3 wickets for 21 runs.

Following are detailed scores

WOODSDALE	
Trewhitt, b. Mallam	2
Johnson, c. Ashbery, b. Mallam	17

GOLF

Ladies' Medal Round Postponed Until
TuesdayThe ladies' medal round, scheduled
for Friday, has been postponed until
Tuesday in view of the fact that the
funeral of Mr. P. Blackey takes place
on Friday afternoon.On Tuesday the medal round and
tombstone competition will be played.

WESTBANK

Miss Gladys McIntosh has arrived
from Vancouver to spend two weeks
with Mrs. I. L. Howlett.On Wednesday night a lot of pirates
raided the home of Mr. I. L. Howlett,
captured Mrs. Howlett and Miss Merle
Howlett and rushed them off in a truck
to the home of Mr. and Mrs. William
Ingram, where things turned out to
be not so bad as might have been ex-
pected. A large number of friends
had assembled to present Miss Merle
Howlett with many useful gifts for
her new home and a very jolly evening
was spent.that grow quickly are Sudan grass,
millet, late sown oats, or oats and
vetches. Even sunflowers may be
used, if seeded rather late and sown
thickly so that the stems do not grow
too large to be eaten without being
cut up.

BASEBALL

Kelowna Wins From Peachland After
Thirteen Strenuous InningsThe local senior team travelled to
Peachland on Sunday last and in one
of the longest games ever played in the
interior they finally won on 10-9, after
thirteen innings of good ball.The game was a pitchers' battle with
the score tied up at 6-6 from the
seventh inning till the thirteenth when
the locals got to Cousins for five hits
and four runs to win the game. In the
last half of the thirteenth the Peach-
land boys could do nothing with the
slants that Gilliam was throwing over
the plate.For the Kelowna team Gilliam took
the mound and went the whole dis-
tance and was working as good as
dead as he was at the first of the game.
He allowed only seven hits for the en-
tire game and all of them were singles,
Cousins being the only one to get to
him for more than one hit, and he hit
the ball for three safe bingles.On the Kelowna team every one got
a hit while the heavy end of the nine-
inning game was done by F. Kitchin, Newby,
Christie and Cowan, who collected
safeties each. Reid played a sensational
game in the left garden when he hand-
led five chances and gathered them all
but only after some hard moving.
Christie was the main cog in the in-
field, handling several chances and mak-
ing them all good.Peachland opened the scoring in
the second inning when Clements got
to first on an error, went to second by
the stolen base route and then went
to third when Morrison advanced him
on a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild

put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild

pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
third inning the locals gathered two
runs when Reid took a base on balls
and stole second. Newby sent him to
third on a nice hit and then Christie
put both of them over the plate when
he sent the ball for a ground ball to
a sacrifice hit. Gilliam threw a wild
pitch and the run was scored. In the
